

This plan is owned by all agencies working with children, young people and families in Worcestershire.

We will:

- Listen to, hear and understand children, young people and families
- Find strengths and build on positives to help people help themselves
- Prioritise partnerships – working together, doing things with people, instead of to them, for them or doing nothing
- Focus on adding value and keep asking is anyone better off?
- Be brave enough to always right thing for children and young people

The plan will set expectations around the way we work

Build on and add value to existing plans and will change over time to respond to need

Focus on key priorities and success measures

Clarify our collective ambition and aspirations for all children and young people in Worcestershire

Provides a framework for all agencies and organisations working with children, young people and families to make the necessary impact to improve lives
