

Item 12a

LMS Trajectories June 2018

LMS	Number of births and projection for each year to 2020/2021				Stillbirths and neonatal deaths								Intrapartum brain injuries			
	Local baseline 2015	2018/19	2019/20	2020/21	Local baseline	Crude Rate	Trajectory March 2019	Crude Rate		Crude Rate	Trajectory March 2021	Crude Rate	Local baseline	Trajectory March 2019	Trajectory March 2020	Trajectory March 2021
H&W	7783	7000	6900	6900	50	6.4	44	6.3	37	5.4	35	5.1	No reliable data to baseline			
H					13		11		9	8	8					
W					37		33		28	27	27					
Notes	Baseline data from ONS 2015 data set. Projections based on bookings and birth trends from provider units and public health data. ONS projections identifies a 2000 birth increase by 2020/21 which does not equate to the trends within the provider population.				Baseline 2015 MBRRACE data from both Providers.								Awaiting national data. Research undertaken into available data through the legal department identified that during 2010 there were 10 cases across the LMS, we do not know if these are on-going or if they have been withdrawn			

	Number of personalised care plans				Number of women able to choose from three places of birth				Number of women receiving continuity of carer				Number of women giving birth in midwifery settings

Notes	All women carry hand held notes and have a womens care plan on page but we recognise it is not as interactive and self-populating as it has the potential to become. To support this we are doing a piece of research work to help midwives give unbiased information when planning care.				The LMS currently offers midwife led care (alongside), consultant led care and home births. We are planning to extend this by providing Midwife led care (Standalone) in Powys and Shropshire and discussions have commenced.				Continuity of Carer from Antenatal, Intrapartum through to Postnatal				Baseline taken from Alongside Midwife led care activity based on total births in the LMS in 2015/16. Plans are being formulated to extend the offer of midwife led care in Powys and Shropshire. We are also planning for all women to start their pregnancy journey as midwife-led care and will need to opt out as their needs change.
