# PERFORMANCE REPORT

**Q2 July – Sept 2020**

<b>GSC Level</b>	<b>Official</b>
<b>Date of publication</b>	<b>15<sup>th</sup> October 2020</b>
<b>Product Reference</b>	<b>SPI/2020/285</b>
<b>Version</b>	<b>Final</b>
<b>Purpose</b>	<b>Overview of Force Performance</b>
<b>Author</b>	<b>Strategy, Planning and Insight</b>
<b>Owner</b>	<b>DCC J. Moss</b>

## Introduction

This is the Q2 Performance Report reviewing activity between July and September 2020. The purpose of this report is to inform the Force Delivery Group meeting on October 21<sup>st</sup> with a force wide picture of performance, particularly in relation to force priorities and key practices. The PMF is still in development and will develop and improve in the next year to ensure that it fully reflects our performance, and informs and enables improvement and innovation; reforming the way that we ensure we are working to deliver the force vision effectively and efficiently.

This report focusses on Gold level Key Performance Indicators (KPI), however, there are also some measures at a Silver level to create a comprehensive picture across the force. The number of measures in this report will continue to be reduced and refined to ensure that they are *key performance indicators*.

Alongside this report is an assessment of the progress of the Performance Management Framework and detail of next steps to ensure the improvement and progress of the framework to a full, first version. The Business Plans have also been created in this reporting quarter and the report covers their relationship.

New in this quarter is reporting on Victim Code Compliance, via the Victim Advice Line, a core service supporting victims of crime. Specifically, this quarter a report on the knowledge of officers regarding the use and services of the line.

Crime and disorder in the last quarter remains similar to Q1 in seeing reductions in physical acquisitive crime; vehicle crime, burglary and shop-lifting, with continuingly higher than projected cyber and drug-related criminal activity.

## Data issues

There have been a number of barriers to presenting an accurate picture of performance. These are due to the creation a significant new dataset to inform this report and the impact of the implementation of new systems across the force such as SAAB-Safe.

Q2 continues to be dominated by the impact of COVID-19 both in terms of its impact of the activity and resources of the force and the changes in crime and disorder numbers during the lockdown period from the end of March 2020. This makes comparisons to previous quarters and the same period last year extremely challenging and will do so for at least the coming 12 months. An overview of the application of FPNs in Q2 has been included in the report.

Projections have been included in this report, however, it should be noted that due to their basis on volumes in previous years the impact of COVID is likely to distort the projections. Factoring the impact of COVID within projections is currently being reviewed.

# Gold Balanced Scorecard 2020-2021

**3. Delivering an ethical service**

3.1 Delivering our service legally and within regulations

**1. Delivering a high quality, consistent service to the public**

1.1 Delivering victim satisfaction

1.2 Creating public confidence

**2. Delivering an efficient service**

2.1 Delivering our service within budget

**4. Delivering innovative, problem-solving practices and processes**

4.1 Delivering effective core practices

4.2 Managing demand

4.3 Innovating and improving

**5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment**

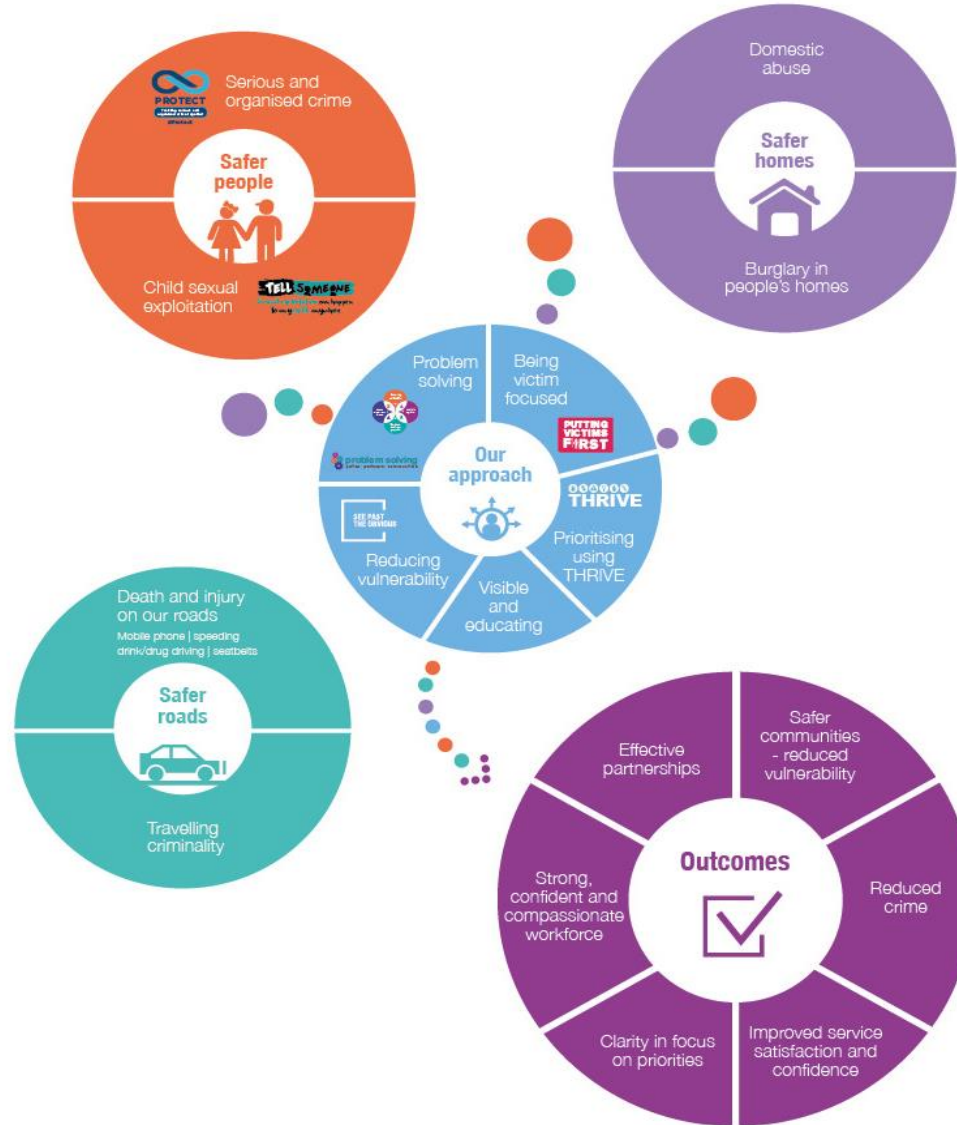

5.1 Establishing a skilled, flexible workforce

5.2 Establishing high quality, accessible knowledge

5.3 Establishing appropriate, available tools

Accountability    Fairness    Honesty    Integrity    Leadership    Objectivity    Openness    Respect    Selflessness

# Our policing priorities

## Safer West Mercia Plan 2016-2021

Putting  
victims and  
survivors first

Building a  
more secure  
West Mercia

Reforming  
West Mercia

Reassuring  
West Mercia's  
communities

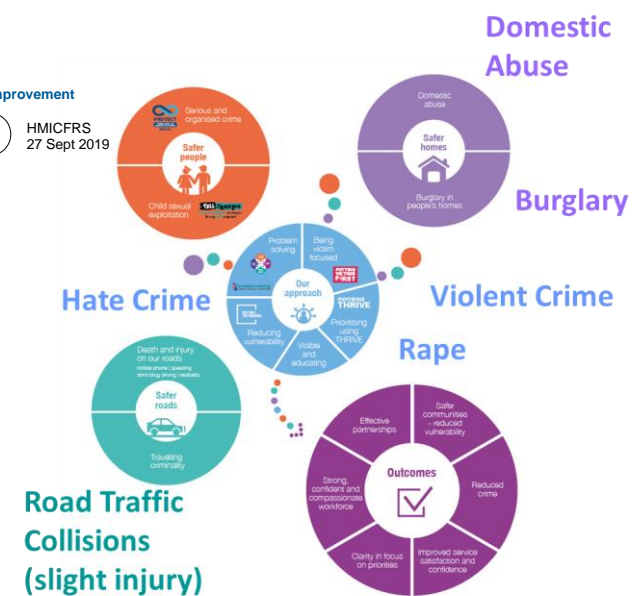

The aim of the Performance Management Framework is to reform the way that we manage performance across the force, reinforcing our focus on priorities and delivering our vision.

Core to the balanced scorecard approach is achieving a balanced delivery to all of our communities. Key elements of the scorecard are delivering confidence and creating victim satisfaction and, ultimately, reassuring those communities and making them feel safe.

## 1. Delivering a high quality, consistent service to the public

### 1.1 Delivering victim satisfaction

Legitimacy – Requires Improvement

 HMICFRS  
27 Sept 2019

### Domestic Abuse Survey

Due to significant staffing absences in the Victim Satisfaction Surveying Team since COVID, **Domestic Abuse (DA) surveys ceased at end March 20 and have not yet been resumed.**

Recruitment processes took place in September and October 20 with all vacant posts being offered; **the team is expected to be at full establishment from December 20 with DA surveys expected to recommence in January 21.**

### Road Traffic Collision Survey

Following the Victim Satisfaction Surveying review which took place at end of 2019, and the decision to change the victim groups surveyed in order to better reflect force priorities, **agreement was secured to implement a Road Traffic Collision (RTC) survey in 2021-21.**

Commencing this survey has been **significantly delayed due to the need for the Department for Transport to make changes to the national CRASH database to allow victims' contact details to be extracted.**

An update from the Department for Transport received in September estimated that the changes were estimated to be enacted by mid-October 20, although some testing would be required.

The intention is to pilot the RTC survey in November 20, will **full implementation planned from December 20.**

# Victim Satisfaction - Burglary

OFFICIAL

## Number of victims spoken to:

Previous Quarter: 120  
 Target: 291

Due to significant staffing absences since April 20, targets are not being met. Further staff have been recruited with an expected start date of December 20.

\* Key Driver data uses rolling data from May 20 which will build up over time. 6-months' rolling data will be presented once data is available; until this time, data is **indicative only**.

## Q2 Performance (completely or very satisfied)

Discrete Data (Q2):

Rolling 6-months:

Note: changes in satisfaction are not statistically significant

# 1. Delivering a high quality, consistent service to the public

## 1.1 Delivering victim satisfaction

### Victims' Code Compliance

- **VAL referrals** are an identified priority for Local Policing. The Delivery Plan sets out to increase referrals to **25% of victim-based crime by April 2021**.

#### Activity this Quarter:

- There has been the **recruitment** of a dedicated Communications Officer and implementation of a 12 month communications delivery plan, with an initial focus on **internal communications and engagement to increase awareness and understanding of the services the VAL provides**.
- SPI are developing a **monthly victim product** detailing LPA-level performance data.
- The VAL have provided **inputs at shift briefings** and other engagement opportunities.
- **Review of updates on Athena victim contact logs** – whether contact has been made and level of support being provided
- **An increase in VAL resources**, including dedicated support for domestic abuse and sexual abuse victims to improve support provision and referral pathways.

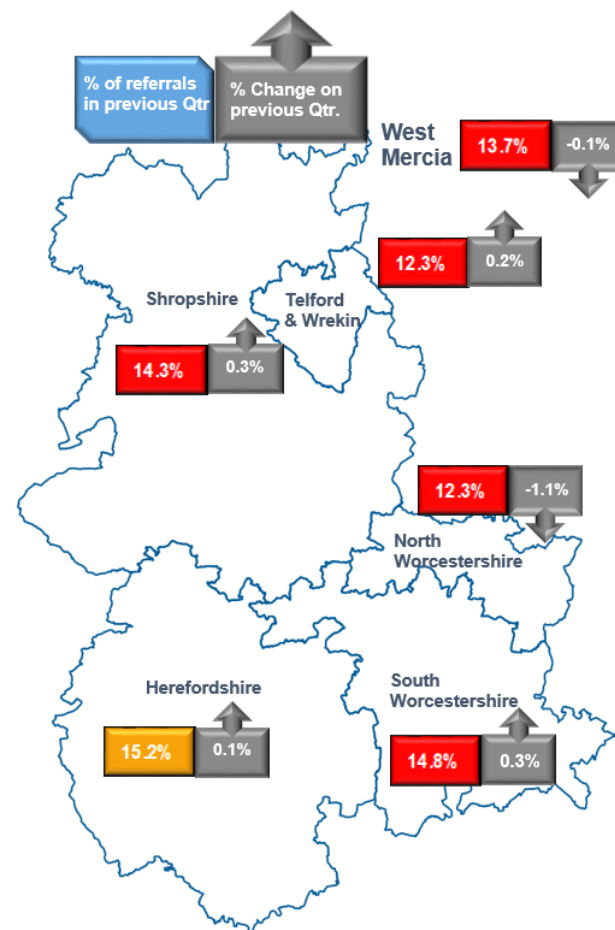

**Referrals: 25% by April 2021**

**Good looks like:**

*Previous month's referral rate: 13.1%*

Qtr 2 20/21	Jul 2020	Aug 2020	Sep 2020	Trend Previous 12 Months	Year To Date
South Worcestershire	20.2%	13.0%	11.9%		14.7%
North Worcestershire	13.6%	5.4%	16.2%		12.8%
Herefordshire	23.6%	8.8%	13.6%		15.2%
Shropshire	19.1%	13.0%	11.2%		14.1%
Telford & Wrekin	15.1%	9.4%	12.2%		12.2%
West Mercia	18.0%	10.1%	13.1%		13.8%

**Key:**

- 31% to 35%
- 20% to 30%
- 15% to 19%
- Below 15%

## 1. Delivering a high quality, consistent service to the public

### 1.1 Delivering victim satisfaction

#### Victims' Code Compliance

The following four pages provide a **breakdown of the Victim Advice Line (VAL) Officer Survey** carried out in Quarter 2. This was carried out in order to determine the **levels of awareness of the VAL and of the referral process**.

This links directly to the question within the Victims' Code;

*"Is the victim assessed and, if found to be in need, referred to support services, within two days of the crime being reported?"*

Of the 334 responses  
received

**89%** were aware of the

Became aware via . . .

42% - Internal Communications

27% - Training

15% - Poster/ Leaflet

5% - Contact with VAL

11% - Word of mouth

**1. Delivering a high quality, consistent service to the public**  
**1.1 Delivering victim satisfaction**

**Victims' Code Compliance**

Officers feel their understanding of the VAL is...

Poor/ Very Poor  
 Average  
 Good/ Very Good

Percentage of officers aware of the following services

Assist in getting a Non-Molestation Order	38%
Individual Safety Planning Support applications for funding	38%
Refer to specialised victim services i.e. Rape and Sexual Violence	88%
Take a Victim Personal Impact Statement	33%
Give on-going support to a victim of crime	79%
Give out personal safety equipment	38%
Offer Restorative Justice	29%
Give victims vouchers for food or clothes bank	25%
Send and register SmartWater packs	21%
None of the above listed services	0%

Frequency that officers inform victims of the VAL

Officers said that when talking to victims about the VAL they feel . . .

1. Delivering a high quality, consistent service to the public  
 1.1 Delivering victim satisfaction

Victims' Code Compliance

Things that would make officers feel more confident are. . .

	Having leaflets I could hand out	75%
	To be provided with an Aide-Memoire about the VAL	59%
	Attending a local briefing/input about the VAL (delivered by an officer)	10%
	Attending a briefing/presentation about VAL (delivered by the VAL)	31%
	Receive an email about the services that the VAL can offer	43%

Have never made a referral because . . .

I do not know enough about the services offered by the VAL	40%
I do not know how to make a referral	47%
I dislike the referral process	2%
My victims have said that they do not want to be referred	28%
I do not feel confident in assessing whether a victim needs support	6%
I do not feel any of my victims have needed support	10%
I am too busy	3%
Referrals should not be my responsibility	6%

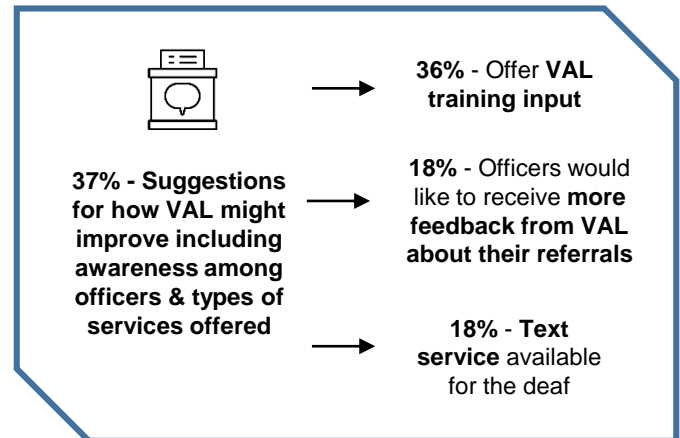

When assessing if victims need support feel . . .

Know how to make a referral in Athena to the VAL . . .

Have made a referral to the VAL . . .

# 1. Delivering a high quality, consistent service to the public

## 1.2 Delivering victim confidence

### Confidence Strategy and Plan

“The police are the public and the public are the police”.

The confidence strategy embraces the Force Vision, Values and Priorities and is structured as **six strands**.

These six headline areas, or ‘**enablers**’ have been identified through academic research as being the basis through which confidence is delivered.

These enablers underpin this strategy, and will, ultimately, be supplemented by a **performance dashboard** which will provide performance against metrics to demonstrate where we are now and where we aspire to be.

A **Delivery Plan** is also in place to drive and track progress, with the governance being provided through the **Victim Satisfaction and Confidence Delivery Group**.

#### Enabler

#### Ambition

**People**

We invest in our culture and build capability in our people to ensure behaviours, decisions and actions build internal and external confidence.

**Process**

We design, manage and improve processes to build confidence and add value for the public.

**Partnership**

We plan and manage external partnerships, suppliers and internal enabling services to ensure they build internal and external confidence.

**Leadership**

Leaders at all levels demonstrate role-model behaviours that inspire trust and confidence internally and externally, and support their staff to do the same.

**Communication & Engagement**

We communicate and engage with our staff and the public in ways that meet their needs and builds confidence in our organisation.

**Performance**

We measure, monitor and manage performance in a way that all staff understand and are held to account for their contribution to improved internal and external confidence.

Operations Support	37.559	18.598	19.552	-0.954	36.422	1.137
Local Policing	101.79	50.373	52.085	-1.712	101.929	-0.139
Business Services	40.051	20.093	25.068	-4.975	41.961	-1.910
Corporate Support	4.377	2.119	1.992	0.127	4.473	-0.096
PCC & YOS	16.201	8.101	7.359	0.742	16.191	0.010
Directorate Total	227.147	112.913	119.481	-6.568	227.991	-0.844
Corporate Budgets	7.078	3.539	4.080	-0.541	6.634	0.444
<b>Total</b>	<b>234.225</b>	<b>116.452</b>	<b>123.561</b>	<b>-7.109</b>	<b>234.625</b>	<b>-0.400</b>
Funding	-234.225	-117.113	-93.144	-23.969	-234.225	0.000
<b>Total</b>	<b>0.000</b>	<b>-0.661</b>	<b>30.417</b>	<b>-31.078</b>	<b>0.400</b>	<b>-0.400</b>

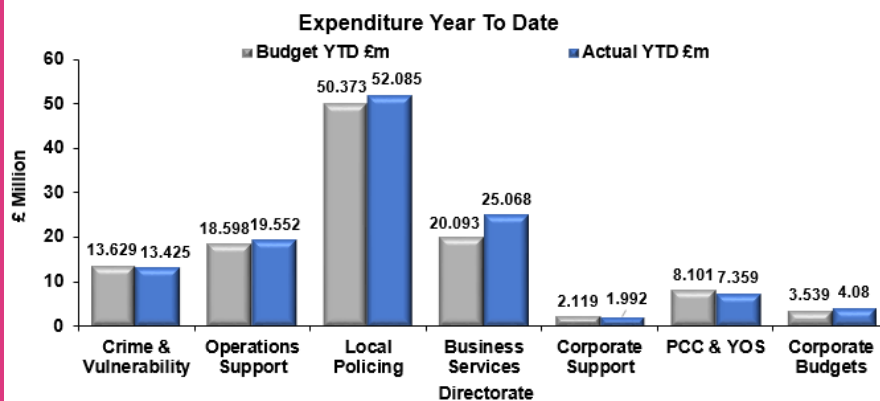

Net expenditure to the end of September 2020 totalled £123.116m, with a forecast of £234.625m made against the overall budget of £234.225m. This results in an expected overspend at 31st March 2021 of £0.401m (0.17%).

There is some caution that individual forecasts in some areas do not follow the spend to date indications and it is felt a degree of risk averseness may have influenced forecasts as nervousness around loss of budget in challenging times comes into play. The forecast may therefore include an element of pessimism bias. The forecast does not currently include any in year impact of preparatory work to realign spending for 2020/21 which can be expected to further bear down on costs. Therefore, taking these factors into account, it is not proposed that action is required to achieve a balanced budget.

Operational income is forecast to be £0.288m below budget, this forecast includes expected income for losses sustained in respect of Covid 19 known to date. Certain income headings can be recouped at 75 pence in the pound and all efforts are being made to identify and reclaim the appropriate substantiated amount. A sum of £0.466m announced Wednesday 7th October is included although not allocated to a specific area as detailed information is awaited.

Officer pay is forecast at £2.510m under, however this is offset to a great degree by a £1.117m overspend on officer overtime, different behaviours toward expectation of overtime worked in the organisation will need to become embedded to redress the balance here. A drop in payments was seen in September following the introduction of the approval process, but as this was the first month any prediction of long term effect could be skewed by the possibility that delays have occurred as officers become familiar with the new process.

The savings plan is on track, however a number of savings currently identified are one-off in the current year and whilst this addresses the immediate issue, permanent savings will need to be identified for 2021/22 onward. This will add to the already significant funding gap/saving pressure for 2021/22 and is a matter for concern.

3. Delivering an ethical service

3.1 Delivering our service legally and within regulations

Completion of Mandatory Training

**Good looks like:** Training: 80% complete by April 2021

Managing information

Data Protection - Foundation

Significant progress is being made towards compliance, with additional scrutiny from the Audit, Assurance and Compliance Board and the Strategic Training Panel.

- 2 MOWP
- 1 Assault – no injury

Clear indicators of behavioural traits that do not align with professional and ethical practice

#### Case Study

“90 year old male reports stepson has entered property again, this time stealing his back door key. He is worried stepson is trying to get him sectioned and take his house from him and steal money. Recently he stole his electric toothbrush and prescription glasses. He has also taken all his documents. His bank have called him and said another party has told his bank that he has forgotten his password and he needs a new one. Male is very worried because he has not forgotten his password. Male wants this to stop because it is very disheartening if stepson takes his home and finances and says he cannot go on anymore.

Officer deployed speaks with male and updates log that he feels male is very lonely and notices planks of wood have been put up on every door. **Vulnerable Adult Incident** to be recorded.

OIC speaks to step son who states he has not been in the house. They had a falling out a few weeks ago and has not been there since.”

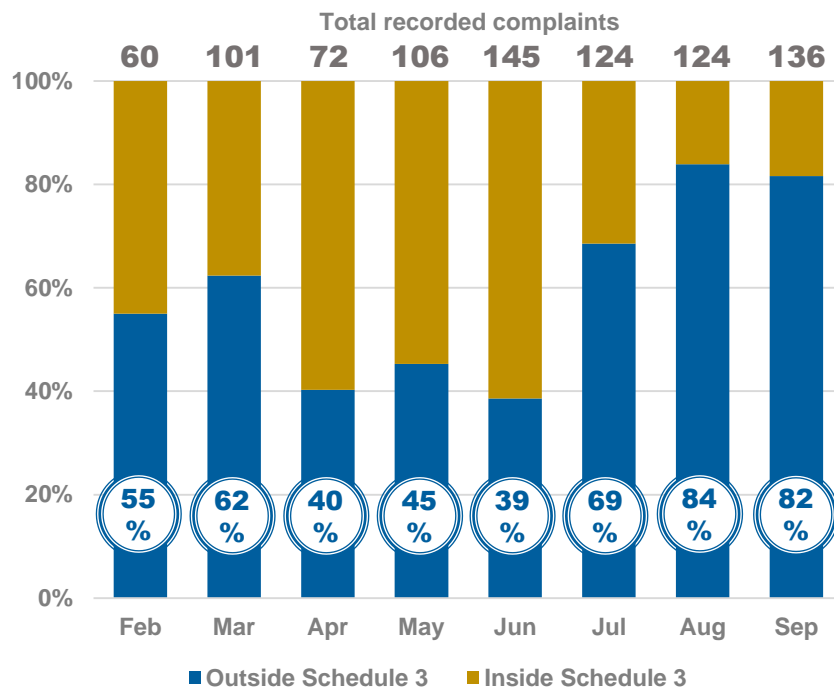

- OIC records Vulnerable Adult Incident.
- No contact made with his bank.
- OIC speaks to male by phone and informs him his step son has not been to the property.
- Male does not believe this
- Stepson’s story believed
- Male’s report of burglary not believed

- During the audit, it is was determined that unethical recording behaviour was happening e.g. ‘cuffing’. This will **impact negatively on satisfaction and confidence**.
- During Aug/Sep, FCR delivered training of OCC sergeants to increase NCRS knowledge & scrutiny.
- Finding have been shared with CDI SPOCs & tasked to ensure all officers briefed on NCRS and that this unethical recording behaviour is unacceptable.
- The FCR audit team now review an additional 25 logs per week of these types to monitor the situation.
- FCR developed ‘Top 10 Things’ product which has been shared with L & D for delivery.

### 3. Delivering an ethical service

#### 3.1 Delivering our service legally and within regulations

##### Complaints

Since July 2020, the number of complaints recorded **Outside of Schedule 3** has **significantly increased**: “we listened, said sorry and fixed it”. This, therefore, means that fewer complaints were recorded under Schedule 3 of the Police Reform Act requiring a more “formal” investigation.

This is as a result of the Complaints Team attending the Sancus Training in June 2020 and the feedback/ lessons learnt from appeal reviews conducted by Sancus.

##### Conducts

In order to cover the three business areas within Professional Standards, we are working towards creating an infographic to illustrate the **timeliness of investigations** for conducts which will be fed into the Fairness, Policy and Standards Quarterly meeting. This will show a comparison in the length of investigations for those investigated locally, directed by the Independent Office for Police Conduct (IOPC) and investigated solely by the IOPC. We will also endeavour to **highlight “bottlenecks” in our investigations** with a view to **improving timeliness**.

##### Vetting

The **West Mercia Vetting Team** has now been established for six months. In this short time, they have completed internal audits for all police officers and staff, ensured all workforce vetted to the required level, as per HMICFRS requirements. The team will now be working on auditing the local contractors/ volunteers and are currently checking individual roles within the force to ensure all staff have the correct level of vetting for their role.

**Good looks like:**

**Outside Schedule 3: >=75%**

*There is no official target for the number of complaints to be dealt with outside of schedule 3, however the PSD have set an aspirational target of 75%.*

*This will allow PSD the capacity to conduct the more “formal” investigations, retaining them “in-house”, reducing demand on local policing areas.*

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Implementation of Saab SAFE

**Saab Safe, our new command and control system, was successfully installed in July.**

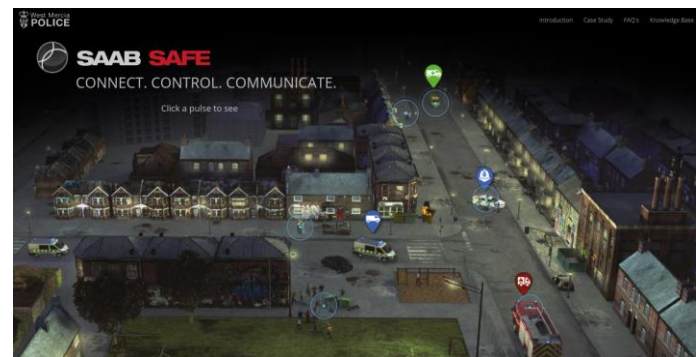

The system, which call handlers use to record details of emergency incidents, crimes and other issues, and to dispatch police officers accordingly, replaced an ageing 30-year-old system, which was no longer fit for purpose.

The introduction of new software takes time for staff to get used to and, on occasion, call handlers spend a little more time on a call as they work to resolve the situation for the individual. **We currently resolve 50% of the issues reported to us during that initial phone contact.**

**During July and August, we saw a 60% surge in emergency 999 calls**, increasing from an average of 10,000 calls a month to 16,000. This increase in demand was reflected nationally.

Our Contact Centre prioritises 999 calls, those in urgent need of a police response, and during periods of exceptional demand the main impact, in terms of call waiting times, has fallen on the 101 service provision. This has meant that the average waiting time for our 101 calls increased.

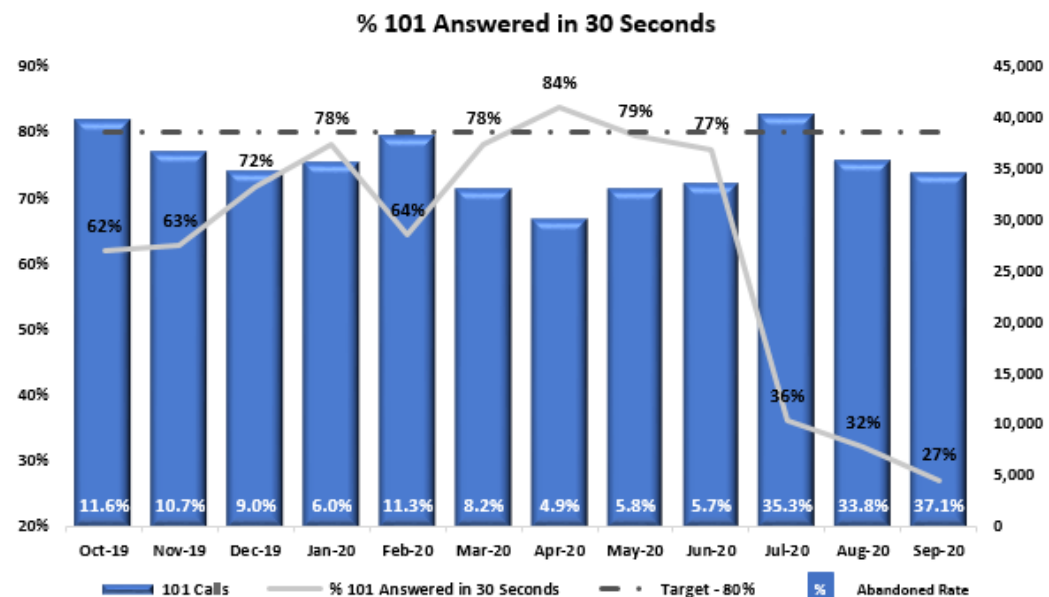

**We have also introduced online function to provide members of the public with another way to report non-emergency crime and pass on information. During July and August, we saw a 71% increase in online crime reports**, which relieves pressures on our 101 provision. We are also starting to see a return to more normal levels of calls to our 999 and 101 call lines.

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Response to calls for service

**Good looks like:**

**999 performance:** 90% answered within 10 seconds

**999 volumes:** To maintain current levels in light of increasing national levels

**101 wait times:** 80% answered within 30 seconds by 1<sup>st</sup> December 20

**101 volumes:** Continued sustained increase of online reporting on Singe Online Home and an increase in website traffic to advice and information

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Response to calls for service

##### 999 Performance

July and August saw an approximate **60% surge** in emergency 999 calls. There was a considerable **increase in 999 demand in August** – over 2,000 calls higher than the corresponding month last year.

The BT report confirms that **this reflected the national position** of significant surges in 999 demand.

**Relaxing of lockdown restrictions, reductions in the number of people taking overseas holidays, and a different operating environment** experienced this year, offer possible explanations for these increases.

**September** has seen a positive return to more normalised demand with the OCC experiencing a small reduction in 999 demand. Increase in 999 performance for the month of September rising from 81% to 83% against 90% target.

A Plan of action was launched in September and we continue to see an increase towards our more normal performance figures.

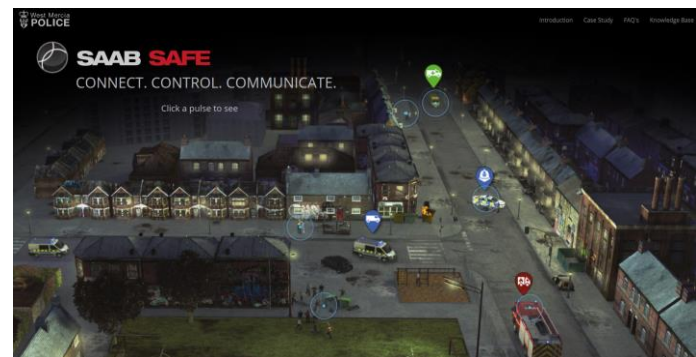

OCC staff continue to familiarise with the new **Saab SAFE** system/ telephony.

##### 101 Performance

September has seen a **slow return** to more normalised demand with the OCC experiencing a **small reduction in 101 demand**. Further month on month decline in September falling to 27%, however a plan of action and a new supervision model is positively impacting upon performance.

**The OCC continues to adapt to the new SAFE platform and telephony; key current impacts:**

- *The appropriate priority afforded to increased **999 demand reduces 101 performance.***
- *The **creation of contact records** impacts on the time taken for each call.*
- ***Organisational failure demand is having a significant impact.** Departments not answering calls result in the call returning to the OCC. This has increased with remote working.*
- ***Officers are still not always providing contact details to victims in all cases, and are not using their mobile phones.** This causes unnecessary demand into the OCC.*
- ***Telephony systems have failed on more than one occasion, with calls not presenting.***

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Response to calls for service

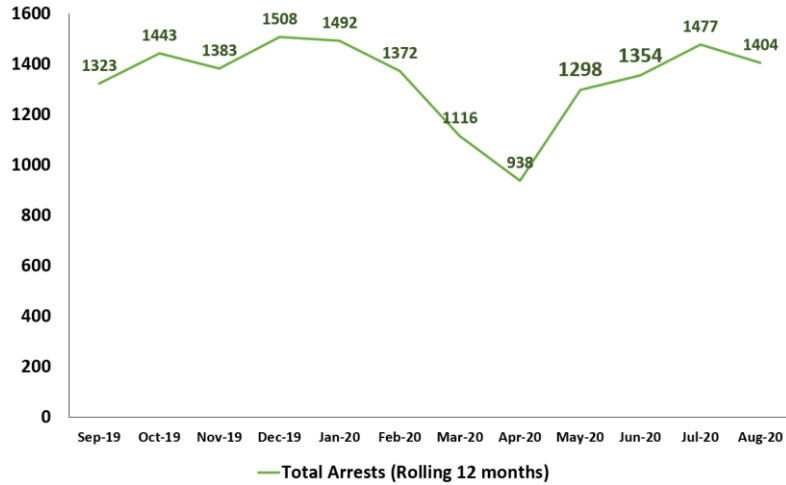

#### Emergency Response Times

Following the move to SAAB Safe all data is being rigorously tested. **Data relating to emergency response times is scheduled to be tested between the 12<sup>th</sup> to the 23<sup>rd</sup> October 2020** with the aim to make it available for all reporting from then.

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Custody

4. Delivering innovative, problem-solving practices and processes  
4.1 Delivering effective core practices

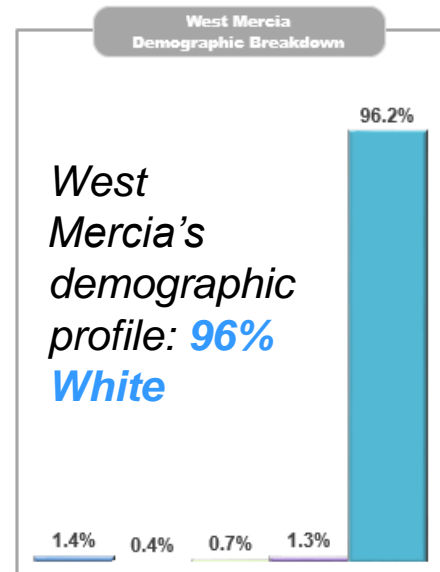

Custody – Gender and Ethnicity Breakdown

■ Asian ■ Black ■ Chinese, Japanese or South East Asian ■ Unknown /Other ■ White

A disproportionate percentage of individuals in custody are of a Black or Asian ethnic origin or their ethnicity is Unknown/ Other

West Mercia's demographic profile: **96%** White

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Crime Management

**Good looks like:**

*In development.*

*An 'optimum' band is thought to be around 8,000-10,000 open investigations at current recording volumes. However, to avoid an incentive simply to close crime this marker would need to be hidden until further work is done to filter out:*

- 1. 'Normal' volume of open investigations awaiting closure with the Designated Decision Makers (DDMs) (currently 5-600)*
- 2. Complex crime types with long average timelines*

*A better "temperature gauge" of force crime is anticipated to come from combining some metrics: Open crime/ Volume in "baskets"/ Suspects outstanding/ "attrition" rates to some outcomes. This is to avoid over-focus on timeliness at the expense of quality investigations.*

#### Activity underway since July 2020 - Phase Two

- New **Suspect Management design process** has been completed and rollout is commencing 15<sup>th</sup> October 2020.
- During September 2020, a "**Key Improvement Themes**" Dashboard summary has been developed by the crime team and published to the intranet, to help local compliance with the new crime system.
- **SP&I will start work on the Metadata** that has been available to them in the databases to inform future work in crime management and knowledge.
- A short **review of the processes within the Control Room and Crime Bureau** has been undertaken, targeting issues with crime allocation shared with Supt. Klair.
- The first round of **Quarterly Performance Reviews** has included a review of local compliance with the new crime system.
- BAIL: Now all data issues are resolved, a new **Bail Management process is being trialled at Hereford.**
- Work commenced on "**Pinch points**" and **blockers in file quality and case progression.**

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Outcomes

##### Short term trends

In Q2 20/21, there was a 5% growth in the number of offences outcomed (regardless of when they were recorded)

Action Taken – 10% decrease in offences assigned an ‘action taken’ outcome during Q2 20/21 compared to previous quarter

Investigation Complete – No Suspect identified – A greater proportion of offences were assigned this outcome result (37%) compared to previous quarter (32%) but lower than same quarter last year (41%)

- Both Outcome 14 (30%, +398 offences) and Outcome 18 (18%, +773 offences) have seen increases on the previous quarter.

**Good looks like:**

*In development.*

*However, thought needs to be given around the balance of **which outcomes are being applied** and if **applied appropriately** in the circumstance*

Volume and Proportion of Outcomed offences by ‘HMIC Grouping’ regardless of when they were recorded

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Outcomes

**Outcome 16 – Victim does not support action**

**Outcome 14 – Evidential Difficulties Victim Based – Named suspect not identified: Victim either declines/ or is unable to support further police investigation**

**Good looks like:**

*100% of Outcome 14 and 16 offences should have a victim linked to the offence.*

#### Outcome 14

In Q2 20/21, a continual improvement is seen in the proportion of Outcome 14 offences that have a Victim linked to the offence. Growing from 73% in the same period last year to 79% in this last quarter.

#### Outcome 16

Proportion of Outcome 16 offences that have a Victim linked to the offence has remained relatively stable over the 3 quarterly periods (92%).

Offences that have a tendency to be 'Victim-less' or are crimes against Society

- Representing 56% (271) of all Outcome 16 offences without a victim (482).

For 'Victim-based' crimes, criminal damage & arson (19%, 81) and other theft offences (26%, 52) have above average 'no victim attached' rates.

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Intelligence Management

Submission of Police Intelligence Reports (PIRs) have seen an 8% *decrease* when comparing the first and second quarters during 2020.

Lockdown was in effect during the second quarter, with restrictions easing on 23<sup>rd</sup> June.

There was a dramatic increase in submissions during May and June, with a peak of 4,345. The number of submissions then steadily decreased until the lowest point in August during the school summer holiday / peak leave period. Overall, submissions have fluctuated between 3276 and 4345 per month.

It was anticipated that more normal submission levels would return during September, however, with the sharp increase in Covid-19 cases in recent weeks this can affect submissions in one of two ways:

- 1) **Decrease** of submissions due to sickness absences.
- 2) **Large upsurge in submissions**, like that witnessed during the spring, due to lockdown measures, which removed demand from the night-time economy and also an overall reduction in crime levels, leaving officers more opportunity to focus on intelligence submissions. Recent weeks have seen a curfew of 10pm being implemented which is anticipated to affect submission levels. Should further lockdown measures be implemented this could fuel an upsurge in submissions.

PIR Submissions  
April to September 2020\*

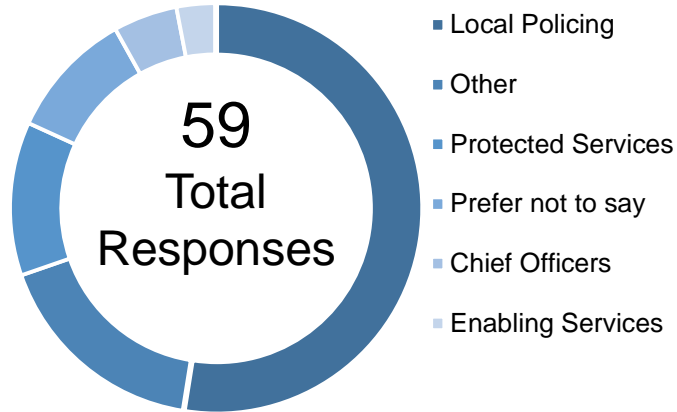

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Problem Solving: Survey Results

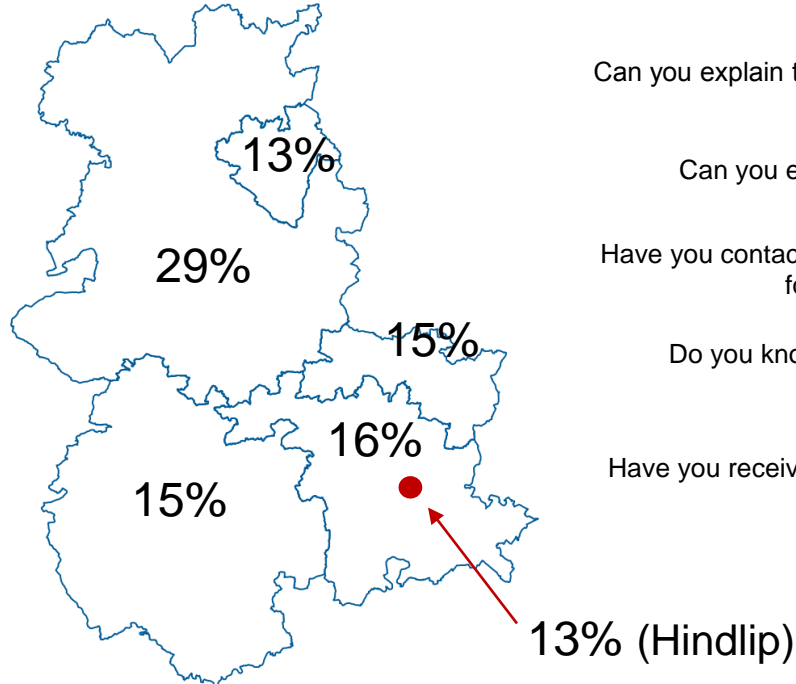

**Survey is carried out annually**

**Distributed on 1<sup>st</sup> August 2020 and ran until 31<sup>st</sup> August 2020**

**The survey provided a baseline level of staff's understanding around Problem Solving that will be used to target areas for improvement**

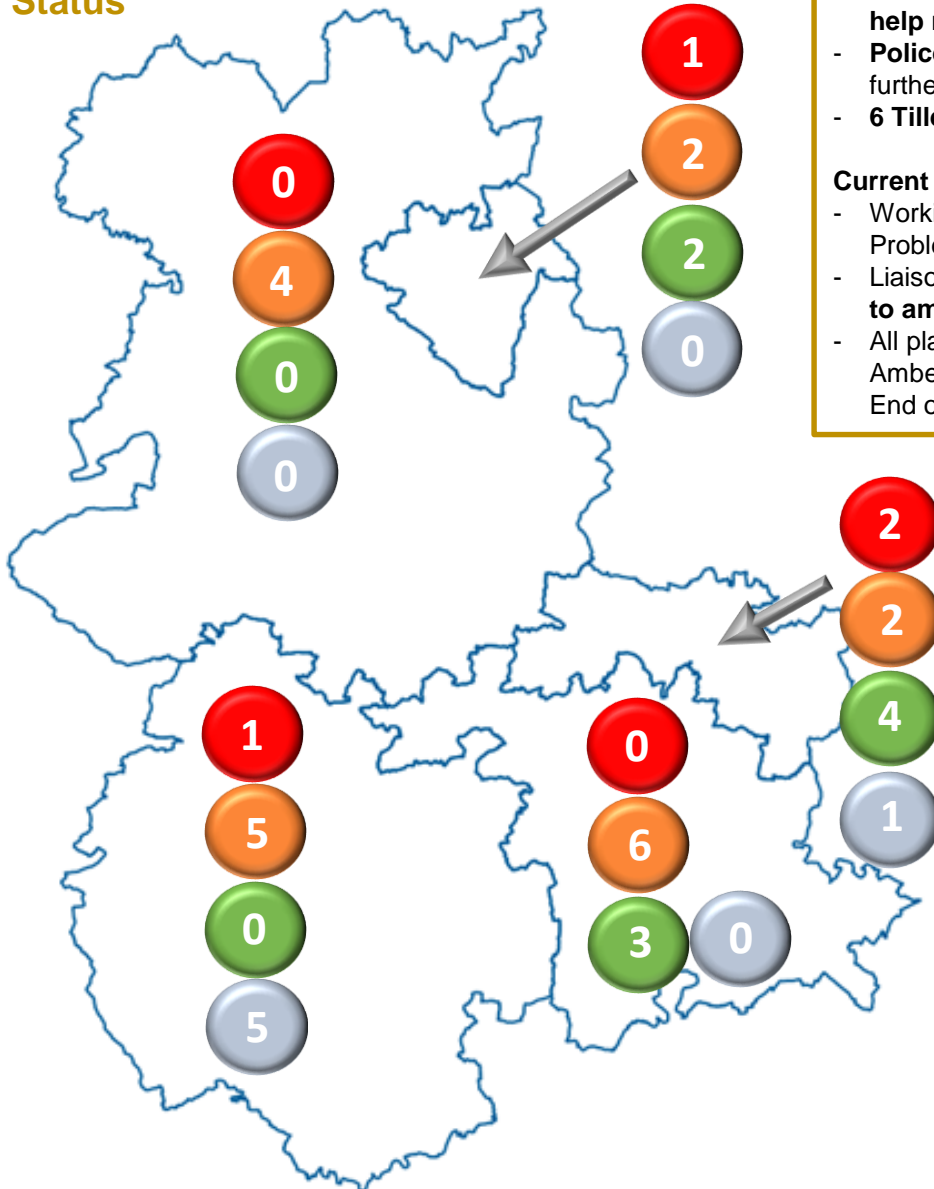

#### Responses by LPA

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Problem Solving Plans: Current RAG Status

#### Good News

- Problem Solving Tactical Advisors (PSTAs) are working with the OCC to **help reduce demand** and a Problem Solving Plan has been drafted.
- **Police Now** and a number of other departments have been reached to further embed PS.
- **6 Tilley award applications** will be submitted by 23<sup>rd</sup> October deadline.

#### Current Aims/Objectives:

- Working with ICT to **develop a reporting system** behind the current Problem Solving ICT Platform.
- Liaison with Corporate Communications to obtain **training for the PSTA's to amend the current Problem Solving intranet site**.
- All plans being **70% Green** by Christmas 2020 with the remainder being Amber Status (No Reds) and the aim of them being 100% Green by the End of 2022/23.

#### Total Open Plans

#### RAG Scoring

Marks for Problem Solving Plans are assigned by Tactical Advisors, utilising the SARA model. The total number of marks available for an open plan is **13**, scored against a pre-agreed criteria.

**Red plans:** 0 – 4 points  
(Poorly presented plan requiring a lot of further work)

**Amber plans:** 5 – 9 points  
(Reasonable plan requiring a little more work)

**Green plans:** 10 to 13 points  
(Good Standard of plan)

## 4. Delivering innovative, problem-solving practices and processes

### 4.1 Delivering effective core practices

#### Continuity Planning

- The force was **audited** by Warwickshire County Council in relation to its **Business Continuity Management processes** in Quarter 2; the result – yet to be signed off – shows that the rating has improved to **'Adequate'** (that the controls provided are **moderate** in terms of risks being managed). This an **improvement since the previous inspection in 2019** when we were rated 'Weak' and when it was concluded that the controls in place were 'Limited'.

The Auditor commented ***"we consider Moderate to be...positive...and demonstrates an overall improvement to where you were previously"***

- Great effort has been put into ensuring that all departments have a **Business Continuity Plan (BCP)** in place; as a result as at end of Quarter 2 **94% of departments now have a current BCP** – a significant increase from the position in October 2019 where compliance stood at 20%
- Lots of work has been undertaken to ensure business continuity should there be another wave of COVID:
  - A **Silver Cell Terms of Reference** has been developed.
  - Each **key business lead has been spoken with to identify their 'perceived wisdom'** following COVID around "what would you do better next time?" in the event of a second wave.
  - Staff survey** was undertaken to capture feedback from officers, staff and volunteers around how they feel they were directed and supported during COVID and how safe they felt.
  - A **monthly de-brief document** and process has been set up to allow those involved in the response to communicate their experiences in order that lessons can be identified and recommendations made for future improvement.
  - Pandemic exercises** have been undertaken with operationally critical departments.

**Audit 2019** →  
(**'Weak'**)

Assurance Opinion and Conclusion

← **Audit 2020**  
(**'Adequate'**)

**Good looks like:**

100% compliance against **Business Continuity Plans** being in place

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

  denotes above the upper control limit.

  denotes below the lower control limit

NB. It is possible for the previous Qtr. to be coloured differently from the Qtr. previous year even if volumes are similar. This is due to the upper and lower control limits changing annually based on the previous years volumes.

**Good looks like:**

**Residential Burglary Dwelling: 25% reduction** in a post-COVID operating environment

**Total Crime: 10% reduction** in a post-COVID operating environment

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

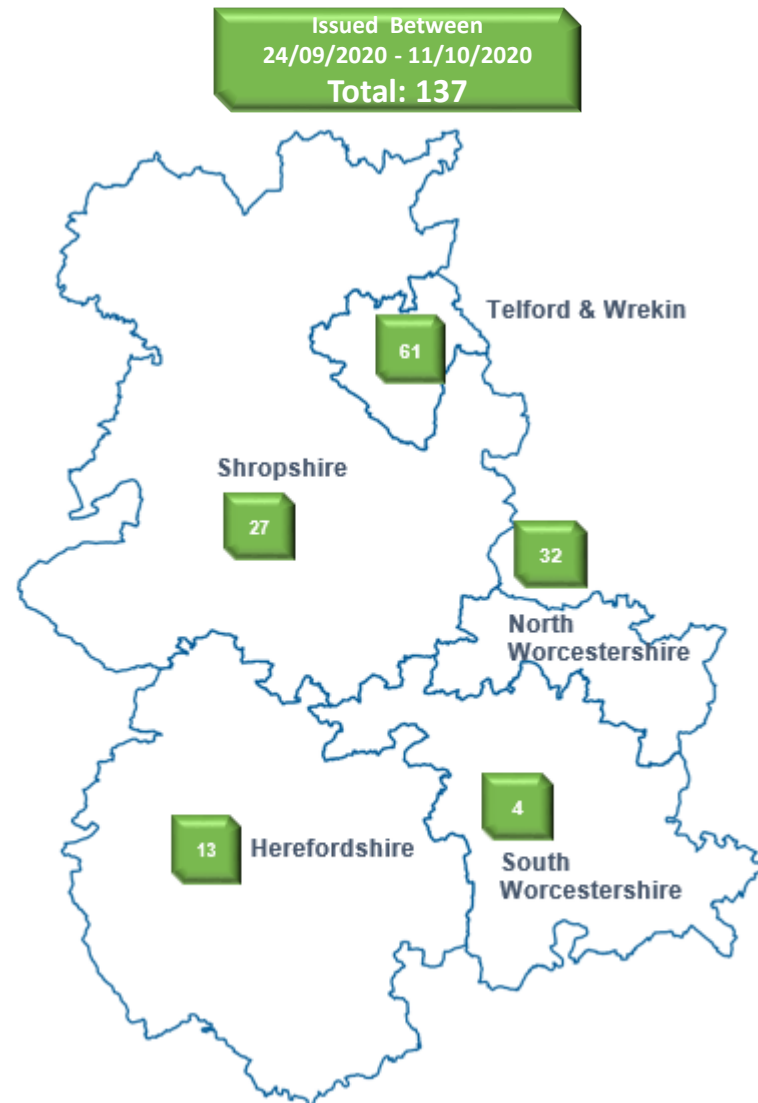

#### COVID Related Fixed Penalty Notices (FPNs)

Since the new COVID-19 legislation came in, a significant number of related FPNs are being rejected by the Criminal Records Office. This creates additional work for officers having to amend and re-submit FPNs.

A number of areas have been identified where improvements could be made and they have been shared with officers.

The key areas are:

- FPN is missing information (every section must be complete)
- FPN is undeliverable as subject to does not live at address / address details are incorrect
- FPN issued to under 18 (FPNS are for over 18s only)
- FPN states refer to MG11 and the circumstances are not complete
- FPN circumstances go into great detail around the regulations and don't actual cover the points to prove. Clear concise information required, as per above point

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

**Good looks like:**

**CSE: Increased reporting**

**KSI: A sustained 20% reduction**

**Domestic Abuse: Increased reporting; A reduction in DA repeat victims**

**Residential Burglary Dwelling: 25% reduction in a post-COVID operating environment**

**Total Crime: 10% reduction in a post-COVID operating environment**

**Incidents: Under development**

**Hate Crime: Increased reporting**

**Vulnerable Adult: Increased reporting**

**Child At Risk: Increased reporting**

Overall crime volumes are returning to anticipated numbers with a few exceptions.

It is expected that volumes will continue to reflect normal volumes in the coming months and follow typical seasonality unless we enter into another period of lockdown.

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change

Value of lower control limit

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

Red denotes above the upper control limit. Green denotes below the lower control limit

NB. It is possible for the previous month to be coloured differently from the month in the previous year even if volumes are similar. This is due to the upper and lower control limits changing annually based on the previous years volumes.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Serious Organised Crime

The disruptions figures account for **disruptions recorded against OCGs with a tiered response level of 1 to 3.**

Latest data indicates that there are **27 active and 23 archived OCGs** in West Mercia.

**59%** of the active OCGs have a primary crime type of **drugs supply or County Lines**. **22%** of active OCGs' principal criminality is **organised acquisitive crime**.

In Q2 2020/21 there were **52 OCG disruptions recorded** - this is an *improvement* on Q1 2020/21 and a *return to pre-Covid levels of disruptions*.

**55 arrests** were made in the timeframe. **10 charges** and **2 convictions** were also recorded during the quarter. 11 arrests were as a result of a single violent disorder disruption. **5 nominals** were **safeguarded** and **1 firearm seized** in the period.

The impact of Covid is still felt in the heavy nature of OCG disruptions. **Pursue disruptions** account for **83% of all OCG disruptions**; this means that **17% of OCG disruptions were either Prepare, Protect or Prevent**. Disruptions data for Q2 2020/21 has yet to be moderated and will change.

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 4 Qtrs	YTD % Change
SOC Disruptions	52	30		58%

### OCG Disruptions

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Safer Roads

Following the **significant reduction in casualties** as a result of COVID 19 movement restrictions, we can now see that **volumes are increasing**.

Overall, whilst the Year To Date volumes are showing a better than 20% reduction on the previous year, at present, **normal volumes – and sometimes higher – are starting to be recorded again**.

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
KSI	145	151		-26%
Fatals Casualties	14	14		-32%
Serious Casualties - Casualties	131	137		-26%

In the last quarter, Killed or Seriously Injured (KSI) **casualties** saw a **4% (6) decrease** compared to the same quarter last year; however, **KSI collisions** saw a **12% (14) increase** overall while there was a 30% (3) increase in **fatalities**.

KSI Casualties

KSI Collisions

**Good looks like:**

**KSI: A sustained 20% reduction**

*If COVID continues to relax, the roads will continue to be busier, albeit pre-COVID traffic levels are unlikely to be seen again due to working from home initiatives.*

*Government initiatives resulting in increased incentives for cyclists but without a change in cycle-lane infrastructure will mean increased numbers of cyclists sharing road space with vehicles.*

4. Delivering innovative, problem-solving practices and processes  
4.2 Managing demand

Policing Priorities

Safer Roads

Motorcyclist Killed or Seriously Injured (KSI) Casualties

The number of Motorcyclist KSI casualties has shown a *downward* trend over the last 12 months.

The number of Pedal Cyclist KSI casualties is trending upwards, with cyclists accounting for 24% of all Serious and Fatal casualties over the last 5 months; this percentage went as high as 57% in April (30%, 37%, 13%, 18% and 24% in subsequent months).

4. Delivering innovative, problem-solving practices and processes  
4.2 Managing demand

Policing Priorities

Safer Roads

Fatal 4 Offences

The two most recent campaigns for speeding and for seatbelts have shown a **substantial increase in the number of offences detected**.

West Mercia Police performed exceptionally well during these campaigns and were **by far the most successful Force in the UK in respect of support and activity during these campaigns**.

The OPU remain **dedicated towards reducing KSI and therefore making the counties' roads safer** by ensuring that effort and activity is focused at all times on the **fatal four** factors. OPU continue to remain high performing in all four areas of enforcement and the **Roads Policing (RP) officer uplift in June has clearly enabled the Force to undertake even more high visibility patrolling and enforcement on the road network**.

The continuing **recruitment of the final 8 RP officers** onto the team by 01.04.21 will clearly have an even greater positive impact on enforcement, education and the capacity of the unit to further positively impact on KSI figures to better protect the travelling public.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

#### Safer Roads

##### Educational Activities & Campaigns

Educational opportunities during COVID-19 continue to be challenging and more limited.

**Green Light** – The Green Light education programme has been updated with new videos embedded. Work is underway to develop a teacher pack if remote learning is needed due to COVID-19 restrictions.

**Dying 2 Drive** – A teachers' pack has been developed in order to provide Yr11 tutors with the information needed for them to be able to deliver the Dying 2 Drive package – this includes 4 workshops around the Fatal 4.

**Motorbikes** – During September, a Biker Down course was run at RAF Shawbury and two Bike Safe courses have been run recently.

**Be Safe Be Seen** – Supporting SNT's with the supply of free high vis cycling goods, and will be assisting with the identification of suitable routes for them to focus on over the winter months.

#### Campaigns Sep – Dec 2020

##### National NPCC campaigns

###### September

- One Road One Week

### 4.2 Managing demand

#### Safer Roads

#### Vehicle Seizures (S59 – road racing)

From February 2020 onwards, the table below demonstrates full use of seizure powers.

Some seizure categories relate to Business As Usual (BAU). The following seizure categories have an immediate and positive impact on our local communities:

1. **Abandoned** (improving the environment, responding to community concerns and making our roads safer)
2. **Obstruction** (making our roads safer and responding to community concerns)
3. **S165 No insurance / Licence** (making our roads safer and targeting OCGs and criminals using the road network)

**S59** - West Mercia does not suffer from antisocial use of vehicles in general and therefore seizures under this category are low. However, the data does show a significant number of seizures in the other categories listed above which clearly have an immediate and positive impact on communities and road safety in general.

Month / Category	Feb-20	Mar-20	Apr-20	May-20	Jun-20	Jul-20	Aug-20	Sep-20	Total	% Share

4.2 Managing demand

Policing Priorities

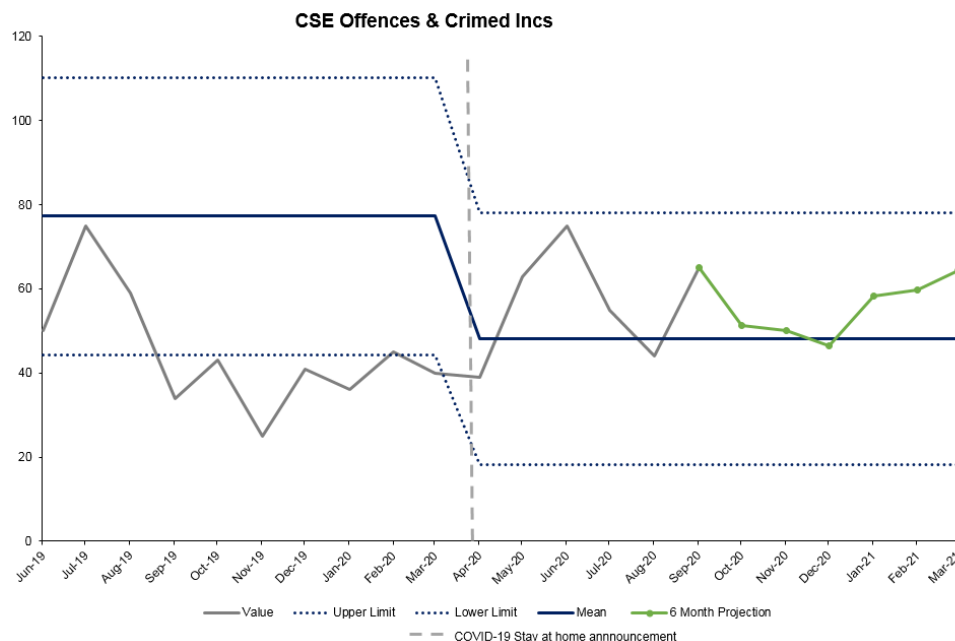

Child Sexual Exploitation

Overall there was a 7% (13) reduction in CSE related offences and crimed incidents compared to the previous quarter.

Rape Offences with a CSE marker (47) have seen an increase of 327%, (36) compared to the previous quarter, 28 of which relate to offences prior to 2015.

5 relate to offences that took place since the start of lockdown however, there have been 30 offences of rape of a child that took place in the same period which may suggest that markers are not being appropriately applied.

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Child Sexual Exploitation	214	164		-2%
	75	168		

**Good looks like:**

**CSE: Increased reporting\***

We also need to use the **correct markers** to ensure the right people are directed to these jobs and so dealt with appropriately

The ongoing **exploitation training** should continue to see an increased **recognition and reporting of CSE by all partners and agencies** who have undertaken this training.

*\*Note: with the change in use of CSE marker (end of 2019), it is not possible to make valid comparisons between the previous 12 months.*

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Domestic Abuse

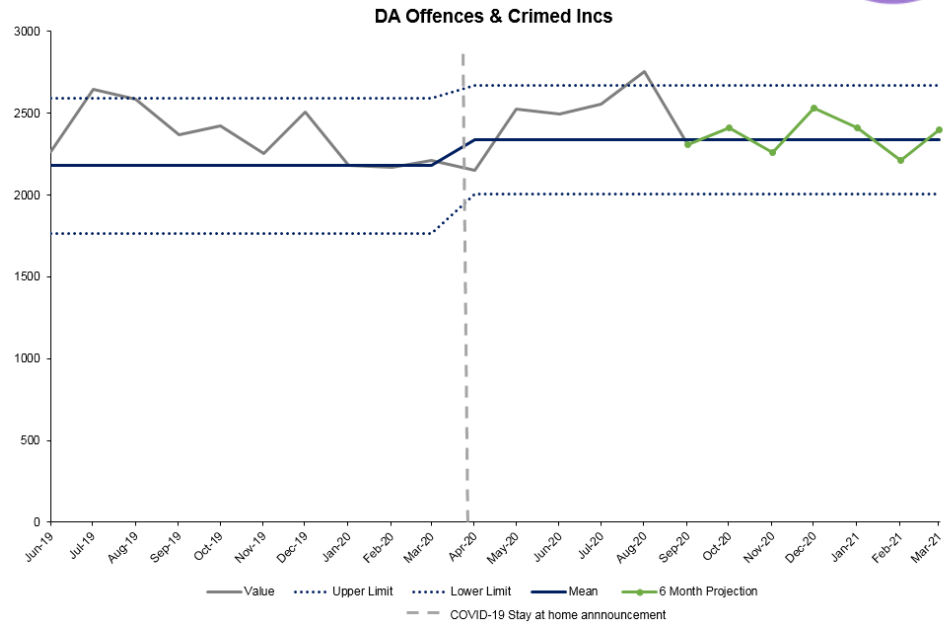

**Good looks like:**

**Domestic Abuse:**  
*Increased reporting;*  
*A reduction in DA repeat victims*

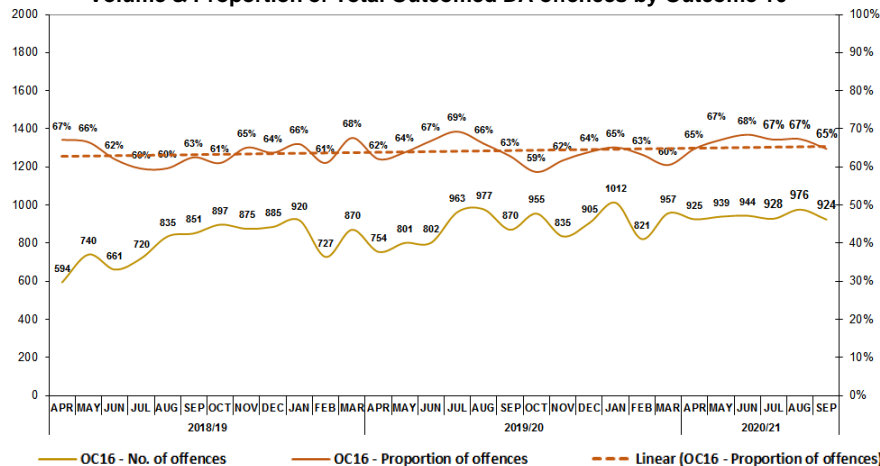

*“Good” is better protection from harm, coupled with the best service we are able to achieve for victims of DA. Therefore, every DA report must be encouraged.*

*We will monitor repeat DA and, through intervening quickly, making proactive arrests as often as possible, using stringent bail and charge rather than DVPNs, should see a reduction in this metric.*

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Domestic Abuse	7957 6066	7620	7598	3%

**Volume & Proportion of Total Outcomed DA offences by Outcome 16**

Over the last 3 months, the volumes of DA offences outcomed by Outcome 16 per month (regardless of when they were recorded) have remained relatively stable despite a peak in August.

The proportion rate has gradually decreased from 68% in June to 65% in September

**DA Arrest Rate**

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

### Domestic Abuse

From August 2020, monthly Domestic Abuse profiles have been created at LPA level in order to monitor DA offences and crimed-incidents.

During COVID-19, a decline was seen in DA offences/crimed-incidents and then a fairly rapid increase back to more typical levels and this has remained the same since August 2020.

There was an increase in online traffic to Shropshire Domestic Abuse Service (SDAS) near the end of August 2020.

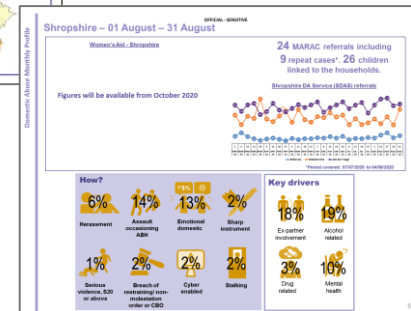

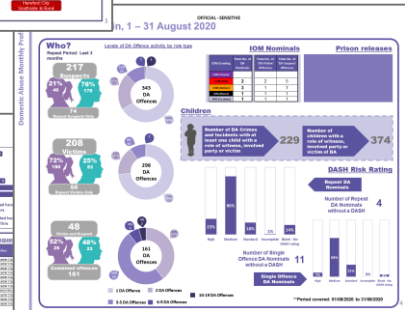

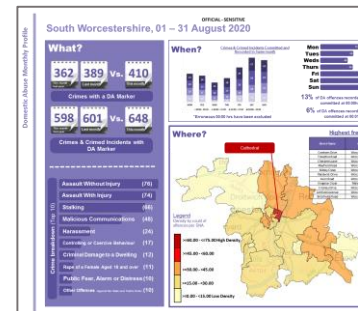

#### Local Policing Area DA Monthly Profiles:

- Composition of offence groups, their geographic and temporal distribution are examined.
- DA victim and DA perpetrator demographics examined including crossover roles.
- Upcoming DA prison release nominals are highlighted
- Partner agencies data to monitor the DA reporting post COVID-19 lockdown.

#### Benefits of this approach:

- Enabling LPAs to be sighted on current issues in their area including;
  - Identifying repeat victims who may have 'gone quiet' since COVID-19 lockdown, so that they could be checked on.
  - Sighting LPAs on upcoming prison releases with DA markers.
  - Highlighting those areas that have a high proportion of DA offences and crimed-incidents.

## Policing Priorities

4. Delivering innovative, problem-solving practices and processes

4.2 Managing demand

A repeat victim is defined as an individual recorded as a victim in the current reporting month that has had at least one other offence in the preceding 12 months.

Domestic Abuse – repeat Victimisation

During Q2 20/21, a peak in repeat DA victims was seen in July 20 and August 20.

In July, 42% (539) of all DA victims (1,289) were repeat DA victims (subject to at least one further offence in the last 12 months).

Since April 2018, this is highest volume and rate of repeat victims seen, surpassing the volumes and rates seen during the Summers of 2018 and 2019.

A greater volume of repeat victims for total recorded crime offences was seen during the last quarter compared to the previous quarter.

The repeat rate has decreased over the last 3 months (32%) – returning to rates seen in January/ March 2020

Repeat Domestic Abuse Victims per Month

Repeat Victims per Month

**75%** of September 2020's 3+ high harm offence repeat nominals have been linked to DA offences over the last three months, n= 419

**Good looks like:**

- Repeat TRC & DA Suspects:**
- Less serial/ repeat DA offenders*
- Decrease in 'recurring' repeat TRC suspects*
- Decrease in repeat rates*

Recidivism was raised at the recent Quarterly Policing Reviews held on each policing area. As a result, DA Monthly Profiles will now sit on local tasking.

Supt Damian Pettit is currently working on the policy for how the data should be used in conjunction with problem solving packages. Adopting this systematic approach will complement the work streams within local tasking, force tasking and the problems solving hubs

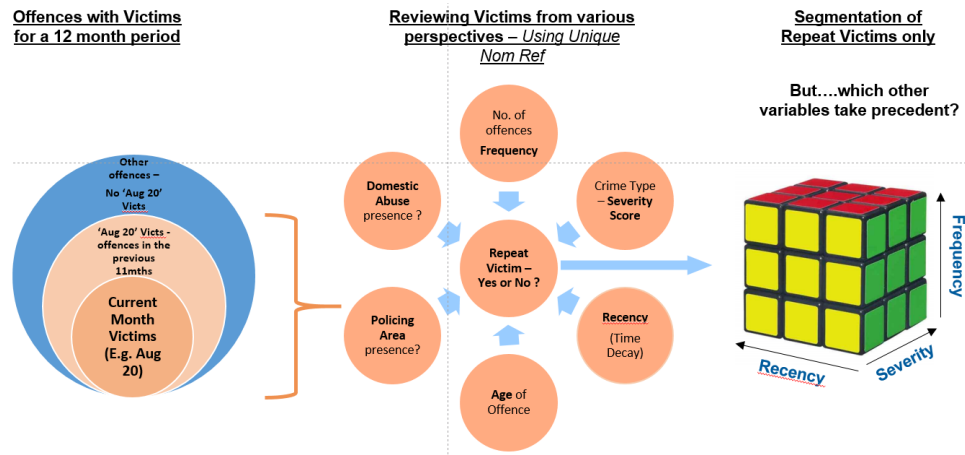

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

#### Repeat Victim Segmentation Model

- Historically, Repeat Victims have been monitored in isolation as a role type.
- Ranking repeat victims by their number of offences has been the prioritisation method of choice.

#### Phase One

- During this quarter, SPI has been developing a segmentation prioritisation model for Repeat Victims across all offence types based on the recency, frequency and gravity (severity) of offences, to enable appropriate safeguarding and risk management.
- Interim results have been presented to Supt Damian Pettit, fine-tuning of model to take place with stakeholder input.

#### Phase Two

- SPI to develop an equivalent segmentation prioritisation model for Repeat Suspects, capturing any learnings from Phase One.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Residential Burglary (Dwelling)

**Good looks like:**

#### Residential Burglary Dwelling:

**25% reduction** in a post-COVID operating environment

Autumn and winter will likely see an increase in burglaries while the impact of austerity and increased unemployment may further drive such an increase.

However, increased working from home and people spending time at home due to unemployment may mitigate against the expected seasonal increase.

	757	556	718	Trend Previous 12 Months	YTD % Change
Residential Burglary	603				-31%

Volumes in Residential Burglary – (Dwelling) increased by 40% (158) compared to the previous quarter but remains 41% (162) lower than the same quarter last year.

Most Similar Group (MSG) data is only available until July 2020 but when comparing all Residential Burglary within the MSG West Mercia is ranked 7<sup>th</sup> out of 8, one place lower than the previous month.

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Hate Crime & Crimed Incidents

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Hate Crime	607	572		3%
	307	557		

Hate crimes and crimed incidents saw a 21% (99) increase on the previous quarter and a 3% (15) increase on the same quarter last year.

All policing areas have seen an increase in volumes except for Shropshire. Telford & Wrekin has seen a 56% (47) increase on the previous quarter.

Racially-related crimes and crimed incidents continue to account for the majority of volumes recorded 68%, (135).

**Good looks like:**

**Hate Crimes & Crimed Incidents: *Increased reporting***

*We also need to use the **correct markers** to ensure the right people are directed to these jobs and so dealt with appropriately*

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

4. Delivering innovative, problem-solving practices and processes  
4.2 Managing demand

Policing Priorities

Vulnerable Adult Crimes & Crimed Incidents

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Vulnerable Adult	3904	3793		3%
	3163			

Vulnerable Adult crimes and crimed incidents saw a 11% (377) decrease on the previous quarter and a 5% (168) increase on the same quarter last year.

Volumes increased across all policing areas.

## Good looks like:

### Vulnerable Adult Crimes & Crimed Incidents:

#### Increased reporting

*We also need to use the **correct markers** to ensure the right people are directed to these jobs and so dealt with appropriately.*

*Demand work and significant efforts to manage partners and other professional bodies who create demand, alongside **problem solving hubs, a centre of excellence and greater emphasis and resources put into tackling mispers and mental health issues** will all contribute towards a **reduction in incidents and demand.***

***However, a move towards dynamic and immediately accessible social media platforms by June 2021, on which contact can be made, will likely see a **rise in demand.*****

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

## Policing Priorities

### Child At Risk Crimes & Crimed Incidents

	Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Child At Risk	5744	5356		-9%
	5008	5613		

Child At Risk crimes and crimed incidents have increased 15% (705) compared to the previous month.

The increase was due to an uplift in volumes increased across all policing areas, noticeably a 27% (244) increase in Telford & Wrekin.

**Good looks like:**

**Child At Risk Crimes & Crimed Incidents:**  
*Increased reporting*

*We also need to use the **correct markers** to ensure the right people are directed to these jobs and so dealt with appropriately*

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

### 4.2 Managing demand

#### Missing Persons

**Good looks like:**

**Missing Person incidents and reports:**

*Reduce proportion of missing person incidents relating to repeat MISPERs*

**Future Activity:**

***New Conversion rate based on Saab SAFE incidents:***

*Calls for Service to Compact Records - To be developed*

Levels of missing persons, nationally and regionally remain sporadic given ongoing impacts of COVID-19, which makes future forecasting unreliable.

In the next month, a Missing Person return home interview service will be established for vulnerable adults which will make WMP compliant with APP. An audit of case files will take place during the following quarter.

		Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	Year To Date	Year To Date Last Year	YTD % Change
No. of Missing Person Incidents	1325	932	1187		1604	2448	-34%
No. of Missing Person Reports	1228	810	948		1393	2077	-33%
No. of MP Reports from Repeat Mispers	468	214	285		360	696	-48%
No. of U18 Missing Person Reports	821	451	570		762	1285	-41%

Volumes in Missing Person incidents increased by 39% (260) compared to the previous quarter but remains 21% (255) lower than the same quarter last year.

In this quarter, the proportion of Missing Person reports relating to repeat MISPERs has remained relatively stable (26%, 214) compared to previous quarter (25%, 146), yet it remains lower than the same quarter last year (30%, 285).

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

4. Delivering innovative, problem-solving practices and processes  
 4.2 Managing demand

Drug Offences

		Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Drug Offences	685	698	554		33%
	464				

Drug Offences continue to experience increasing volumes, however, there has been a 5% (38) decrease on the previous quarter.

Whilst overall volumes have decreased, Trafficking of Controlled Drugs has increased by 26% (55) compared to the previous quarter. An increase in this offence was seen in all policing areas but was specifically driven by volumes in South Worcestershire, Shropshire and Telford & Wrekin.

Most Similar Group (MSG) data is only available until July 2020 but when comparing drug offences within the MSG West Mercia is ranked 5<sup>th</sup> out of 8, a decline compared with the previous month.

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

4. Delivering innovative, problem-solving practices and processes

4.2 Managing demand

Cyber Crimes and Crimed Incidents Offences

		Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Cyber	1070	1162	863		47%
	324				

This data is generated from Athena where the keyword “cyber-enabled” has been applied to a crime. We saw a significant increase in 2019/20 compared to 2018/19, and this trend continues.

A recent internal report “Recession: An Impact on the Criminal Landscape” noted that

“Cybercrime and computer misuse is likely to increase as operations adapt from the COVID-19 lockdown to the recession environment...  
...It is probable that this will lead to potential recruitment to larger OCGs and adaptive alterations to criminal MO that will demand the adaptive decision making and influence of police forces.”

“Cybercrime has increased and developed in nature through the COVID-19 lockdown with some large scale phishing campaigns that have maximised the impact of their attacks.” and that

“Cybercrime is proven to expand faster than the rate in which police forces can adapt. Therefore it is highly likely that increasing infrastructure and ability within this arena will enhance crime fighting capacity.”

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

## 4.2 Managing demand

## 4. Delivering innovative, problem-solving practices and processes

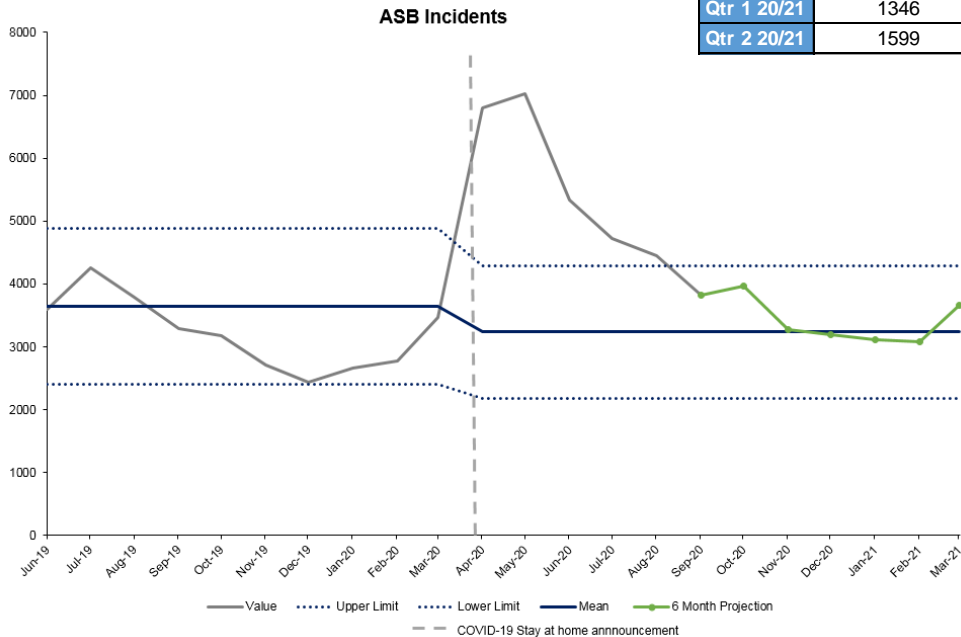

### 4.2 Managing demand

#### Anti Social Behaviour

		Qtr 2 20/21	Qtr 2 19/20	Trend Previous 12 Months	YTD % Change
Anti Social Behaviour	12433	13004	11337		49%
	6997				

ASB incidents have reduced by 32% (6153) compared to the previous quarter but are still 9% (1667) above volumes recorded for the same period last year.

	ASB Personal	% of ASB	ASB Nuisance	% of ASB	ASB Environmental	% of ASB	Total ASB
Qtr 2 19/20	1205	11%	9463	83%	669	6%	11337
Qtr 3 19/20	952	11%	6955	83%	423	5%	8330
Qtr 4 19/20	983	11%	7347	83%	572	6%	8902
Qtr 1 20/21	1346	7%	15360	80%	2451	13%	19157
Qtr 2 20/21	1599	12%	10296	79%	1109	9%	13004

ASB Personal has seen a 16% (253) uplift in volumes compared to the previous quarter.

Overall would normally expect volumes to continue to decrease with seasonality but volumes may be dependant on the implementation of COVID related restrictions.

The upper and lower control limits are derived by calculating 2 points of Standard Deviation from the mean. The mean is fixed for the year and is based on volumes recorded in the previous financial year.

## 4. Delivering innovative, problem-solving practices and processes

### 4.3 Innovating and improving

#### HMICFRS Inspections

- The National Monitoring Portal continues to be a work in progress.
- In July 2020, HMICFRS uncovered a fault with bulk changes previously made to the system, this meant causes of concern from reports “The Poor Relation” (Crimes against older people), “Understanding Difference” (Hate Crime) and PEEL Legitimacy 2016 had not been listed. The amendment reflects the jump in Causes of Concern.
- Whilst evidence against our recommendations and AFIs continues to be uploaded to the Portal, in addition to evidence gathered through insight work; our FLL Gary Ashton has clarified that due to the Covid-19 inspection and investigations revisit he will not be reviewing the Portal until post November. As such there will be no change in numbers of open recommendations, AFIs and causes of concern for this period.
- AFIs from the “A Call for Help” report on contact management have been rescinded to be assessed as part of PEEL. Hence the national dip in open AFIs from August to September.

Age of West Mercia’s Recommendations, AFIs and Causes of Concern (Sep 20)

## 4. Delivering innovative, problem solving practices and processes

### 4.3 To what extent are we improving the practices and processes we undertake?

#### Service Improvement – Benefits Realisation

A **new approach to Benefits Realisation** has been implemented to ensure that the significant investment into Change Programmes is a good use of our financial resources and that the Programmes are resulting in ***demonstrable financial and non financial benefits***.

This marks a move towards a more **benefits focused method of implementing change** across the organisation and will enable benefits to be reflected in the **Business Planning cycle**.

*This will be achieved through doing the following:*

1. **Clear identification of realistic benefits and Benefit Owners at the beginning of a Programme** (through completion of the Benefit Profile document alongside the Business Case).
2. **Clear ownership and plans to achieve benefits, both during the lifecycle of a Programme, and post implementation** using 'RAG' (Red, Amber, Green) ratings and involving quarterly status reporting.
3. **Clear reporting to demonstrate that benefits have been achieved after implementation** into Business as Usual.

In Quarter 2, the **Business Change Team** have been brought under the **Change Department** so as to ensure closer and more efficient working with Programmes and across the business.

**Good looks like:**

100% of our Change Programmes identify ***demonstrable financial and non-financial benefits***.

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.1 Establishing a skilled, flexible workforce

#### Force Leadership Development Programme

The purpose of this Programme is to embed a new and consistent leadership approach which **recognises and values difference and promotes a positive and healthy team culture** as set out in our **People Strategy**:

The Programme, which is targeted towards both offices and staff, is structured as three phases with Phase 1 already underway; the Programme is scheduled to run until early 2021.

#### Phase 1: Review Evidence Base

**Chief Officer Team Development** : To help inform and shape the future leadership approach

**Further develop our evidence base in terms of what it feels like to work for West Mercia:** Speak Up and National Wellbeing Surveys

**You Said, We Did:** Communicate to the workforce how we have used previous surveys to inform activity

#### Phase 2: Chief Officer and Executive Team Development

**Gap Analysis**

**Tailored development for Executive level informed by Gap Analysis**

**Co-Creation of Leadership Framework and Programme (involving a one-day workshop)**

#### Phase 3: Leadership Framework and Development - linking with PDR, MAX and Talent Management

**A Core Leadership development programme:** Developed for ALL supervisors and managers

**Rank specific development:** Tailored development programmes for each rank and police staff equivalent and reinforced career pathways

**High Potential Development Scheme:** Bring MAX to life and focus on the top talent of the organisation including of under-represented groups

**Change Network:** Develop and launch a change network across the force

**Good looks like:**

An embedded **leadership approach which recognises and values difference** and promotes a **positive and healthy team culture**

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.1 Establishing a skilled, flexible workforce

#### National Uplift Recruitment Plans

The objective is to recruit student officers by **diverse entry routes** and to **recruit and retain talent**.

The numbers recruited since the start of the year through each route is shown below:

PCDA (Police Constable Degree Apprenticeship):	110
DHEP (Degree Holder Entry Programme):	40
IPLDP (Initial Police Learning and Development Programme):	19
Police NOW (Graduate police entry scheme):	12
<b>TOTAL:</b>	<b>181</b>

The first PCDA cohort joined the force in January 2020 and our first DHEP cohort started in July 2020.

Despite training arrangements having to be adapted to ensure COVID-safety, **Learning & Development have met the training demands for new recruits and Specials.**

#### People Strategy

Our People Strategy embraces the force Vision, Values and Priorities and puts people at the heart of what we do. We identified six people objectives to support our ambition.

Our six people objectives will enable the following benefits:

- To be people and public focused
- Working together
- Strong, confident and compassionate workforce
- Inclusion
- Diverse workforce
- Supportive honest conversations
- Improved attendance
- Work/life balance
- Skilled people
- Service focused
- Improved service, satisfaction and confidence
- Demand focused
- Clear direction and accountability
- Role clarity
- Career pathways

**Good looks like:**

**1.** We recruit student officers by **diverse entry routes** and **recruit and retain talent**.

**2.** We **meet the training demands** of new recruits.

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.1 Establishing a skilled, flexible workforce

#### Staff well-being

Sickness for police officers saw a 0.68% increase on the previous month.

The Crime & Vulnerability Directorate saw the largest increase.

**Good looks like:**

**Sickness: *To be developed***

Sickness for police staff saw a 0.06% increase on the previous month.

Police and Crime Commissioner Directorate saw the largest increase.

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.1 Establishing a skilled, flexible workforce

#### Sickness: Impact of Psychological Disorder

**Good looks like:**

**Sickness: *To be developed***

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.2 Establishing high-quality, accessible knowledge

#### Knowledge Management

The knowledge that we hold as a force is a critical asset to inform decision making and the way that we undertake core activities.

We deliver a number of insight products across the force from the embedded products that inform strategic and tactical tasking and co-ordination at LPA and force levels, through some of the products mentioned above such as the bespoke Domestic Abuse weekly profiles, through to very new products such as Public Order and Roads Policing Strategic Assessments. Some of our core knowledge sits within Beat Profiles.

In addition, there are products that inform our core practices such as the authorised Professional Practice from the College of Policing and the considerable knowledge that is accessible through the intranet in areas such as GDPR, ICT tools and Organised Crime management.

Our goal to identify and assign value to our knowledge fits within the new Competency and Values Framework (QVF) which has a focus to deliver '**intelligent, creative and informed policing**'.

'We are open to new sources of information, continuously developing our own knowledge to help the police service to grow and change in line with new challenges and stay at the forefront of public service'

Our approach to knowledge management focusses on corporate and professional levels, but also emphasises our individual responsibility to continuously learn and improve our knowledge.

## 5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

### 5.2 Establishing high-quality, accessible knowledge

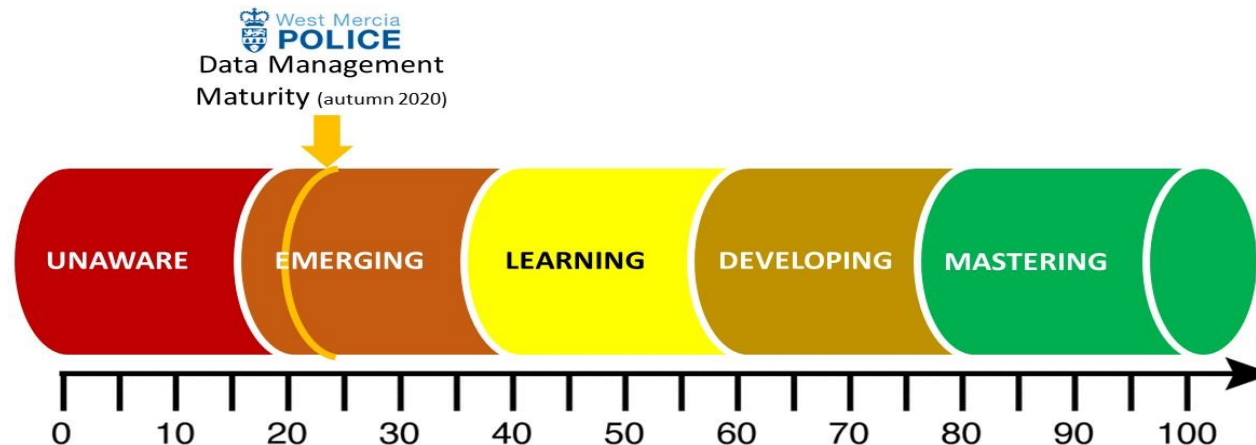

#### Knowledge Management

### Data Maturity Assessment

The overall maturity score, taking into account all areas of data maturity (Data Uses, Data, Analysis, Leadership, Culture, Tools, Skills) places West Mercia police just out of stage One, **Unaware** and just into Stage Two, **Emerging**.

This should be no surprise to those people working with the forces data as it would be fair to say that most people are aware of the need to improve the data quality, processes and governance around data and in small pockets and siloes.

People are looking at potential ways they can improve it, however improving data management is an enterprise activity and is normally a large long term project that will see some quick wins but it is the longer term wins that make the biggest difference.

It is worth noting that the elements that seem to sit in Stage 3 are maybe there more as a perception by the staff that completed the survey and interpretation of statements in the survey.

5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment  
 5.2 Establishing high-quality, accessible knowledge

Knowledge Management

Data Maturity Assessment

The maturity Model above showing all responses for the 7 core data maturity areas laid on top of one another shows that there is no single area that is standing out any differently to the others with all just moving into stage two.

It is worth noting that in the opinion of the survey responders, some activity does move into the third stage, however this appears to be at a local level and not force wide.

**25%** Is the overall maturity score

**Good looks like:**

*This is currently being defined however, the interim goal is to achieve;*

**Start of level 3 (40%) :  
 December 2021**

**Top of level 3 (70%) :  
 December 2022**

**5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment**  
**5.3 Establishing appropriate, available tools**

**Asset Management**

**Digital Services**

Performance	Mar-20	Apr-20	May-20	Jun-20	Jul-20	Aug-20	Sep-20
Network availability	99.97%	Not Available	Not Available	99.78%	99.98%	99.97%	99.97%
Core application availability	99.87%	99.77%	99.77%	99.23%	99.44%	99.04%	99.04%
Radio availability	99.94%	99.87%	99.87%	99.88%	99.88%	99.87%	99.87%

**Number of Assets, September 2020**

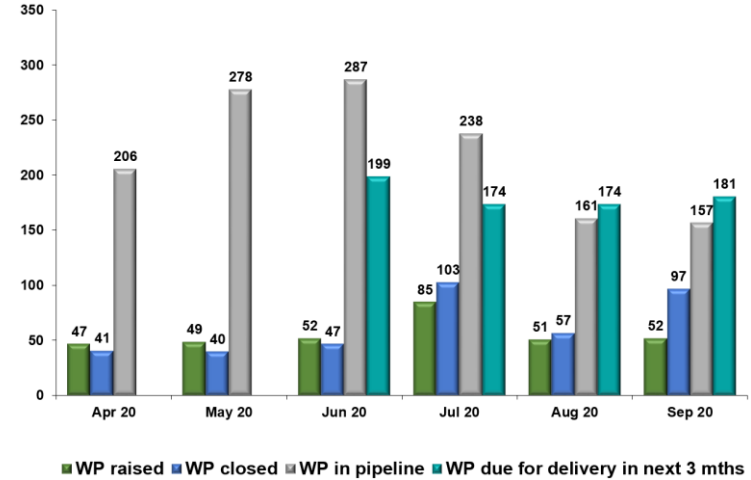

Desk-tops	6263
Lap-tops	4523
Body-worn cameras	2204
Mobile telephones	5581
Radios	5096

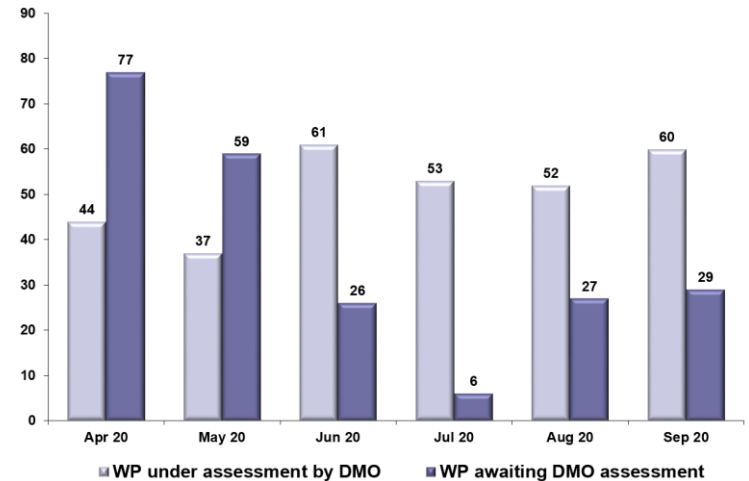

**Good looks like:**  
**To be developed:**

**Post split with Warwickshire in Apr 2021**

**Number of Work Packages**

**Assessment of Work Packages**

**5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment**  
**5.3 Establishing appropriate, available tools**

**Number of accidents per month and cost**

Since the introduction of the Accident Management Group (AMG) a small decrease in found damage and unnecessary damage has been noted, but the figures shown are still far higher than they should be. This is currently being investigated further.

Further work is to be done by the AMG to reduction in found damage, reversing damage, flood damage incidents, along with the potential introduction of psychometric testing by the Driving School.

Those accidents that are yet to be inspected for damage, or received a repair estimate, have automatically been given a £0.00 cost

**Good looks**

like:

*This is currently being defined however, the interim goal is to achieve*

**Reduction:**

**Avoidable accidents**

**Accident estimates/total cost per month:**

Most, but not all, premium fuel transactions are from when officers are out of Force, and are unsure of fuel stations in the area, but there are a number who continue to use their local station and disregard the instructions issued. There are notices being introduced on all cars to remind officers that none of our fleet require premium products to operate.

Whilst this is currently being addressed, it is not assisted by the shortfall in the fleet that was identified some time ago – replace with – The poor utilisation of our owned fleet verses number of vehicles in hire is currently being investigated to ensure we only have the bare minimum of hire vehicles.

5. Delivering a skilled, sustainable workforce in a constantly learning and improving environment

5.3 Establishing appropriate, available tools

Vehicle Associated Costs

Good looks like:

Continued reduction: Premium/ Super Fuel costs & vehicle hire

Vehicle Hire

Location	Number of vehicles on hire	Total ongoing hire cost
Force	54	£545,223
South Worcestershire	8	£49,280
North Worcestershire	6	£25,717
Herefordshire	6	£85,177
Shropshire	14	£165,332
Telford & Wrekin	10	£120,369

The has been a steady reduction in the use of premium fuel products and the majority of end users are aware our fleet do not need to use this.

Most, but not all, premium transactions are from when officers are in an area out of Force where they don't know where supermarkets are, but there are still the few who continue to use where they always have.

We must also note that in some of our more rural areas, there is only premium products available at the smaller outlets.

No fleet vehicles are hired without prior authorisation by a Supt or above but we still have a number of hire cars in areas that we have underutilised owned fleet.

Whilst this is currently being addressed, it is not assisted by the shortfall in the fleet that was identified some time ago
