The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

# Key matters

## Factors

### Council developments

The Council has continued operating in a challenging environment over the last two years as a result of the global pandemic, changes in government funding, and the political and economic impact of Brexit. The Council continues to balance service delivery with the need to drive efficiencies. A small underspend is forecast currently for 2021/22, with a balanced budget being set for 2022/23.

Whilst the Council's 2022/23 financial position is balanced the Medium Term Financial Strategy sets out a significant challenge. The Council is transparently reporting both revenue and capital funding challenge to enable informed decision making.

Management have reported their plans to upgrade accounting software for the following financial year (2023/24), which might impact staff capacity for the current year audit. To mitigate this, the upgrade is planned to take place in June before the fieldwork audit begins in July. We will continue to work with the Council to understand any impact this might have on the year end audit.

### Recovery from Covid 19 pandemic

The pandemic continues to impact service delivery and the financial regime, with a small overspend being forecast after accounting for the Covid grant income received. In a practical sense, the Council has returned to flexible office working, and we will be in regular contact with your finance team in respect of the logistics and arrangements for our 2021-22 programme of audit work.

### Financial Reporting and Audit – raising the bars

The Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge, and to undertake more robust testing. Our work in previous years has highlighted areas where Local Government financial reporting, needs to be improved, with a corresponding increase in audit procedures. We have also identified an increase in the complexity of financial transactions in the Local Government sector which require greater audit scrutiny.

## Our response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set further in this Audit Plan, has been agreed with the section 151 officer.
- We will consider your arrangements for managing and reporting your financial resources as part of our work in completing our Value for Money work.
- We will continue to provide you with sector updates via our Audit Committee updates.
- We have identified an increased incentive and opportunity for organisations in the public sector to manipulate their financial statements due to increasing financial pressures. We have therefore identified a significant risk in regards to management override of control – please see the “Significant risks identified” section of this report for further detail.

# Introduction and headlines

## Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Worcestershire County Council ('the Council') for those charged with governance.

## Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Worcestershire County Council. We draw your attention to both of these documents.

## Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Council and group's financial statements that have been prepared by management with the oversight of those charged with governance, the Audit and Governance committee; and we consider whether there are Council and group for sufficient arrangements in place at the securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that resources are used efficiently to maximise the outcomes that can be achieved.

The audit of the financial statements does not relieve management or the Audit and Governance Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

## Group Audit

The Council is required to prepare group financial statements that consolidate the financial information of Worcestershire Children First.

## Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Revenue and expenditure recognition (rebutted);
- Management override of controls;
- Valuation of land and buildings
- Valuation of EfW Plant; and
- Valuation of net pension fund liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

## Materiality

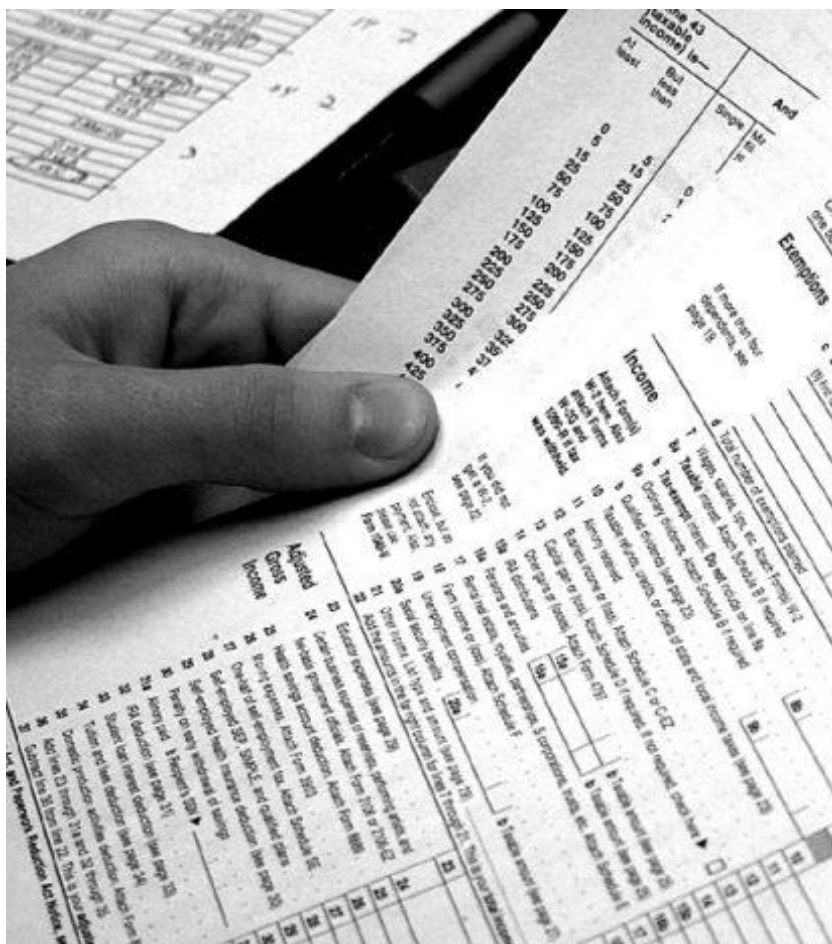

We have determined planning materiality to be £14.5m (PY £14.5m) for the group and £14.4m (PY £14.4m) for the Council, which equates to 1.5% of your prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £726k (PY £725k).

## Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money have identified the following risks of significant weakness:

- Financial Sustainability

# Introduction and headlines cont.

## Audit logistics

Our interim visit has taken place in March and our final visit will take place in July and aim to conclude in September. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our fee for the audit will be £133,456 (PY: £126,843) for the Council, subject to the Council delivering a good set of financial statements and working papers. Our fee also assumes that we will be able to work on-site. If the Council wishes us to work remotely there will be an additional fee of c£10,000+VAT due to inherent inefficiency of remote working. We are discussing the arrangements for the audit with officers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

# Group audit scope and risk assessment

In accordance with ISA (UK) 600, as group auditor we are required to obtain sufficient appropriate audit evidence regarding the financial information of the components and the consolidation process to express an opinion on whether the group financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

Component	Individually Significant?	Level of response required under ISA (UK) 600	Risks identified	Planned audit approach
Worcestershire County Council	Yes	Audit of the financial information of the component using component materiality.	<ul style="list-style-type: none"> <li>As set out on page 4</li> </ul>	Full scope audit performed by Grant Thornton UK LLP
Worcestershire Children First	No	Audit of one or more classes of transactions, account balances or disclosures relating to significant risks of material misstatement of the group financial statements.	<ul style="list-style-type: none"> <li>Management override of controls</li> <li>Revenue recognition (rebutted)</li> </ul>	Full scope audit performed by Grant Thornton. The nature, time and extent of our involvement in the work of the component auditor will begin with a discussion on risks, guidance on designing procedures, participation in meetings, followed by the review of relevant aspects of the component auditors audit documentation and meeting with appropriate members of management.

## Key changes within the group:

The group risk assessment has not identified any changes from the prior year. 2021/22 represents a full year of trading for Worcestershire Children First, however they still remain below the threshold for them to be considered individually significant.

## Audit scope

- Audit of the financial information of the component using component materiality
- Audit of one more classes of transactions, account balances or disclosures relating to significant risks of material misstatement of the group financial statements
- Review of component's financial information
- Specified audit procedures relating to significant risks of material misstatement of the group financial statements
- Analytical procedures at group level

# Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>The revenue cycle includes fraudulent transactions (rebutted)</p> <p>Risk relates to both the Group and the Council</p>	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p> <p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Council, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> <li>• there is little incentive to manipulate revenue recognition</li> <li>• opportunities to manipulate revenue recognition are very limited</li> <li>• the culture and ethical frameworks of local authorities, including Worcestershire County Council mean that all forms of fraud are seen as unacceptable.</li> </ul>	<p>No specific work is planned as the presumed risk has been rebutted.</p>
<p>The expenditure cycle includes fraudulent transactions (rebutted)</p> <p>Risk relates to both the Group and the Council</p>	<p>Practice Note 10: Audit of Financial Statements of Public Sector Bodies in the United Kingdom (PN10) states:</p> <p>"As most public bodies are net spending bodies, then the risk of material misstatement due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition". Public sector auditors therefore need to consider whether they have any significant concerns about fraudulent financial reporting of expenditure which would need to be treated as a significant risk for the audit.</p> <p>We have rebutted this presumed risk for Worcestershire County Council because:</p> <ul style="list-style-type: none"> <li>• expenditure is well controlled and the Council has a strong control environment; and</li> <li>• the Council has clear and transparent reporting of its financial plans and financial position to the Council.</li> </ul> <p>We therefore do not consider this to be a significant risk for Worcestershire County Council.</p>	<p>No specific work is planned as the presumed risk has been rebutted.</p>

# Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Management over-ride of controls</p> <p>Risk relates to both the Group and the Council</p>	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>• evaluate the design effectiveness of management controls over journals;</li> <li>• analyse the journals listing and determine the criteria for selecting high risk unusual journals;</li> <li>• test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration;</li> <li>• gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and</li> <li>• evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.</li> </ul>
<p>Valuation of land and buildings</p> <p>Risk relates to the Council only</p>	<p>The Council revalues its land and buildings on a rolling five-yearly basis. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. Additionally, management will need to ensure the carrying value in the Council's financial statements is not materially different from the current value at the financial statements date, where a rolling programme is used.</p> <p>We therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement, and a key audit matter.</p> <p>On 3 February 2022 CIPFA LASAAC launched a consultation on proposals for an update of the 2021/22 Code relating to the approach to measurement of operational property, plant and equipment. We encourage the Council to respond to this consultation, which closes on 3 March 2022, and we will engage with officers to discuss the audit implications of any changes if and when they are confirmed.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>• evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work;</li> <li>• evaluate the competence, capabilities and objectivity of the valuation expert;</li> <li>• write to the valuer to confirm the basis on which the valuation was carried out;</li> <li>• challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding, the Council's valuer's report and the assumptions that underpin the valuation;</li> <li>• test revaluations made during the year to see if they had been input correctly into the Council's asset register; and</li> <li>• evaluate the assumptions made by the valuer for those assets revalued at 31 March 2022. For the assets not formally revalued in year we will assess how management has satisfied themselves that these assets are not materially different to the current value at the year end.</li> </ul>

# Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Valuation of EFW Waste Plant</p> <p>Risk relates to the Council only</p>	<p>The Council carries a large Waste Management asset on their Balance Sheet. This consists of Plant and Equipment and due to the high value (PY – 90m) this will be considered a significant risk this year alongside valuation of Land and Buildings. Management will need to ensure the carrying value in the Council’s financial statements is not materially misstated.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>• evaluate management's processes and assumptions for the calculation of the estimate</li> <li>• test revaluations made during the year to see if they had been input correctly into the Council's asset register; and</li> <li>• Should an expert valuer be used, the following verifications will be relevant:</li> <li>• assess instructions issued to valuation experts and the scope of their work (should an expert be used);</li> <li>• evaluate the competence, capabilities and objectivity of the valuation expert;</li> <li>• write to the valuer to confirm the basis on which the valuation was carried out;</li> <li>• challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding, the Council’s valuer’s report and the assumptions that underpin the valuation;</li> <li>• evaluate the assumptions made by the valuer as at 31 March 2022.</li> </ul>

# Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Valuation of the pension fund net liability</p> <p>Risk relates to the Council only</p>	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved in the Council's balance sheet and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>• update our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls;</li> <li>• evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work;</li> <li>• assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation;</li> <li>• assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability;</li> <li>• test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary;</li> <li>• undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and</li> <li>• obtain assurances from the auditor of the Worcestershire Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.</li> </ul>

# Other risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Value of Infrastructure assets and the presentation of the gross cost and accumulated depreciation in the PPE note</p> <p>Risk relates to the Council only</p>	<p>Infrastructure assets includes roads, highways and streetlighting. As at 31 March 2021, the net book value of infrastructure assets was £418m which is a significant multiple of materiality.</p> <p>In accordance with the LG Code, Infrastructure assets are measured using the historical cost basis, and carried at depreciated historical cost. With respect to the financial statements, there are two risks which we plan to address:</p> <ol style="list-style-type: none"> <li>1.The risk that the value of infrastructure assets is materially misstated as a result of applying an inappropriate Useful Economic Life (UEL) to components of infrastructure assets.</li> <li>2.The risk that the presentation of the PPE note is materially misstated insofar as the gross cost and accumulated depreciation of Infrastructure assets is overstated. It will be overstated if management do not derecognise components of Infrastructure when they are replaced.</li> </ol> <p>For the avoidance of any doubt, these two risks have not been assessed as a significant risk at this stage, but we have assessed that there is some risk of material misstatement that requires an audit response.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>•Reconcile the Fixed Asset Register to the Financial statements</li> <li>•Using our own point estimate, consider the reasonableness of depreciation charge to Infrastructure assets</li> <li>•Obtain assurance that the UEL applied to Infrastructure assets is reasonable</li> <li>•Document our understanding of management’s process for derecognising Infrastructure assets on replacement and obtain assurances that the disclosure in the PPE note is not materially misstated</li> </ul>

# Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

## Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit and Governance Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

# Accounting estimates and related disclosures

## Additional information that will be required

To ensure our compliance with this revised auditing standard, we have requested further information from management and those charged with governance during our audit for the year ended 31 March 2022.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings
- Depreciation
- Valuation of defined benefit net pension fund liabilities
- PFI
- Accruals

## The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

### Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- **What the assumptions and uncertainties are;**
- **How sensitive the assets and liabilities are to those assumptions, and why;**
- **The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and**
- **An explanation of any changes made to past assumptions if the uncertainty is unresolved.**

### Planning enquiries

As part of our planning risk assessment procedures we have worked with management to produce the Informing the Audit Risk Assessment report which included the details of the estimates that management are planning to make in the production of the financial statements. This will be reported as a separate item on the agenda for the Audit and Governance Committee.

### Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540\\_Revised-December-2018\\_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

# Other matters

## Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
  - giving electors the opportunity to raise questions about your 2021/22 financial statements, consider and decide upon any objections received in relation to the 2021/22 financial statements;
  - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
  - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
  - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

## Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

## Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. Applying such an approach should enable us to increase our focus on wider financial resilience (as part of our VfM work) and ensure that our work on going concern is proportionate for public sector bodies. We will review the Council's arrangements for securing financial sustainability as part of our Value for Money work and provide a commentary on this in our Auditor's Annual Report (see page 16). We will also need to identify whether any material uncertainties in respect of going concern have been reported for the Council's subsidiary. If such a situation arises, we will consider our audit response for the group.

# Materiality

## The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

## Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the group and Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £14.5m (PY £14.5m) for the group and £14.4m (PY £14.4m) for the Council, which equates to 1.5% of your prior year gross expenditure for the year. We design our procedures to detect errors in specific accounts at a lower level of precision which we have determined to be £15k for Senior officer remuneration.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

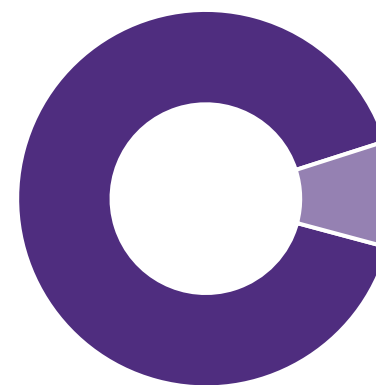

## Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the group and Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £726k (PY £725k).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit and Governance Committee to assist it in fulfilling its governance responsibilities.

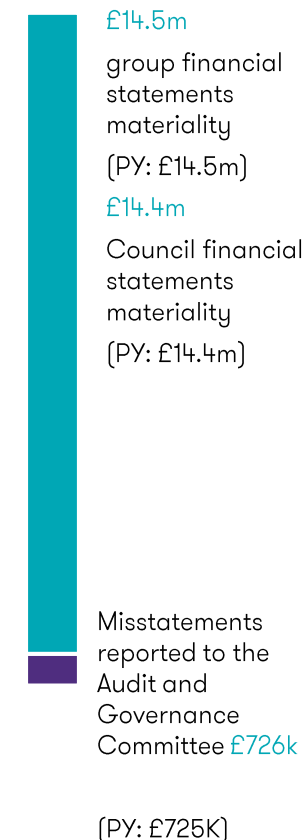

## Prior year gross operating costs

£968m Group  
£980m Council

■ [Forecast/Prior year] gross operating costs

## Materiality

# Value for Money arrangements

## Approach to Value for Money work for 2021/22

The National Audit Office (NAO) issued updated guidance for auditors in April 2020. The Code requires auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out below:

### Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

### Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

### Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

# Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risk we have identified is detailed in the first table below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.

## Risks of significant weakness

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

### Financial Sustainability

The Council has set a balanced budget for 2022/23. This was achieved through a combination of factors including identifying efficiencies (£8m) and a use of earmarked reserves. The medium financial outlook is more uncertain, with budgets gaps of £10.5m identified for the 2023/24 financial year and further gaps of £12.2m in 2024/25 and £9.6m in 2025/26. Due to the inherent uncertainty we have concluded that there is a significant risk of weakness in arrangements for delivering financial sustainability.

We will review the plans the Council has in place to close the gaps, paying particular attention to the robustness of any savings plans.

## Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

### Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

### Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

### Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

# Audit logistics and team

## Mark Stocks, Key Audit Partner

Mark's role will be to lead our relationship with you. He will take overall responsibility for the delivery of a high quality audit, meeting the highest professional standards and adding value to the Council.

## Terry Tobin, Audit Manager

Terry plans, manages and leads the delivery of the audit, is your key point of contact for your finance team and is your first point of contact for discussing any issues arising.

## Meriel Clementson, Audit In charge

Meriel's role is to assist in planning, managing and delivering the audit fieldwork, ensuring the audit is delivered effectively and efficiently, and is also involved in supervising and co-ordinating the audit team.

## Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

## Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of items for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

# Audit fees

In 2018, PSAA awarded a contract of audit for Worcestershire County Council to begin with effect from 2018/19. The fee agreed in the contract was £73,493. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2021/22 audit.

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing in relation to the updated ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting. We have engaged an audit expert to improve the level of assurance we require for property valuations estimates, which has been included in our proposed audit fee. Our proposed work and fee for 2021/22, as set out below, is detailed overleaf.

	Actual Fee 2020/21	Proposed fee 2021/22
Council Audit	£126,843	£133,456
Total audit fees (excluding VAT)	£126,843	£133,456

## Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of financial statements, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

## Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

# Audit fees – detailed analysis

Scale fee published by PSAA	£73,493
-----------------------------	---------

## *Ongoing increases to scale fee first identified in 2019/20*

Group Accounts	£3,750
Enhanced audit procedures for Property, Plant and Equipment (which includes the cost of the auditors expert)	£10,438
Enhanced audit procedures for Pensions Liabilities (IAS19)	£4,375
<b>Brought forward ongoing fee from 2019/20</b>	<b>£92,056</b>

## *New issues for 2020/21*

Additional work on Value for Money (VfM) under new NAO Code	£19,000
Increased audit requirements of revised auditing standards	£15,900
<b>Total original audit fees 2020/21 (excluding VAT)</b>	<b>£126,956</b>

Increase in fee due to enhanced FRC review and infrastructure for 2021/22	6,500
---------------------------------------------------------------------------	-------

<b>Total audit fees (excluding VAT)</b>	<b>*£133,456</b>
-----------------------------------------	------------------

\* The fee assumes that we are able to conduct our audit on site with the finance team available/present. If this is not possible we estimate that the additional cost of the audit will be c. £10,000.

# Independence and non-audit services

## Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

There is one matter that impacts on our independence as auditors that we are required or wish to draw to your attention.

Kathryn Kenderdine acted as a member of the audit team for the audit of Worcestershire County Council during the 2019/20 financial statement audit. From the 12th April 2021, Kathryn will take up a post in the Internal Audit function of Worcestershire County Council. We have considered the ethical implications of this change of employment and gained assurances from the Chief Finance Officer that Kathryn will not be responsible for any part of the preparation of the financial statements for the 2020/21 financial year. We have ensured that appropriate safeguards have been in place from when Kathryn first applied for the role, through to her leaving her employment with Grant Thornton. These safeguards have included, restricting Kathryn's access to any files or documents relating to Worcestershire County Council, and ensuring she is not present at any meetings where audit issues are discussed. As a further safeguard, any review of Internal Audit work during the course of our audit will not be undertaken by any junior member of the audit team that has previously worked to Kathryn.

We are satisfied that the matters above and proposed safeguards provide sufficient protection to enable us to remain independent to the audit of Worcestershire County Council for 2021/22.

We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams and component audit firms providing services to the Council.

## Other services

The following other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

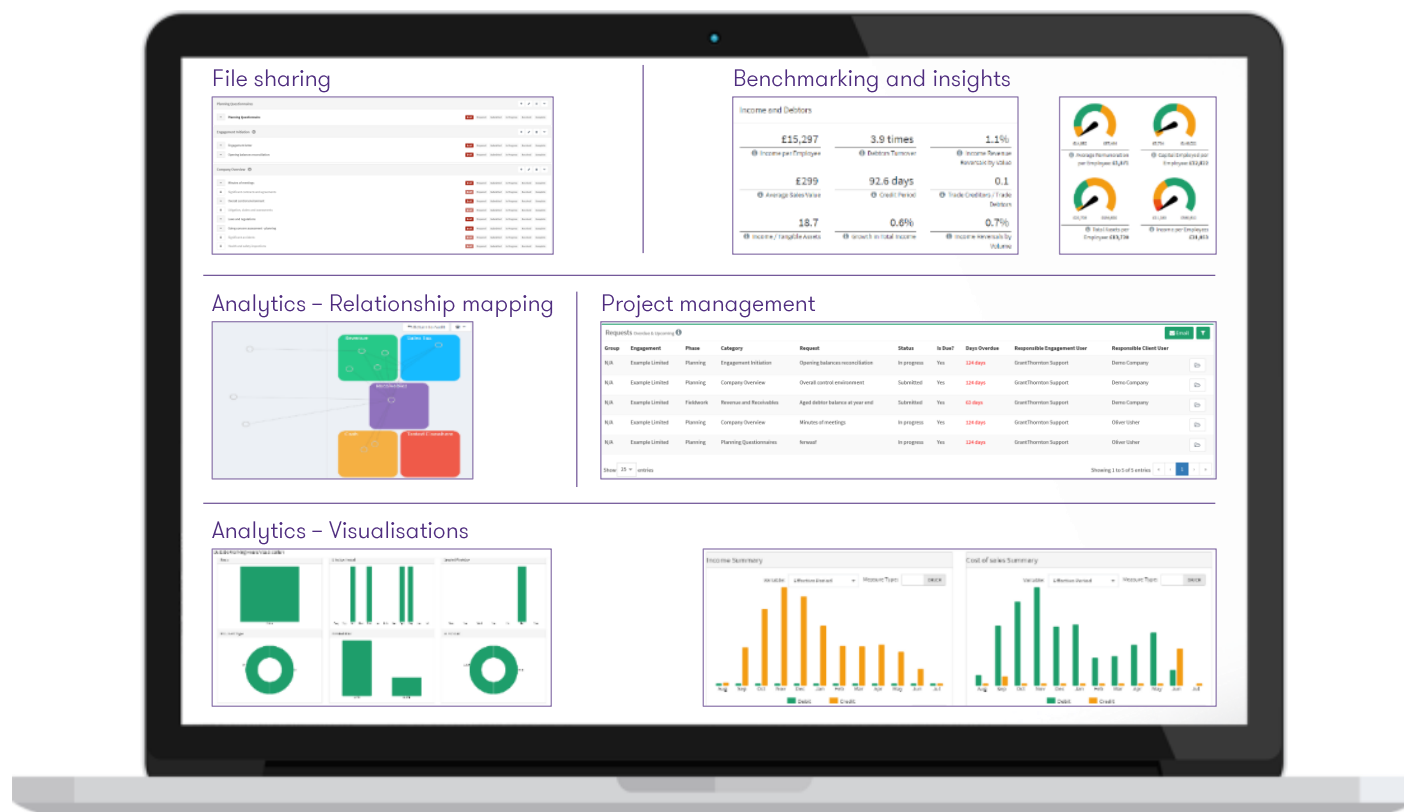

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
Certification of the Teachers Pension Return (2020/21)	4,500	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work in comparison to the total fee for the audit of and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level. We also plan to carry out the certification of the 2021/22 return.
Non-audit related			
Audit of Worcestershire Childrens First Trust	30,350 (2020/21)	Self-Interest (because this is a recurring fee)	We also continue to carry out the audit of Worcestershire Childrens First Trust. The work is undertaken by a team independent of the County Council audit team. This is a separate audit engagement.
CFO Insights	12,500	Self-Interest (because this is a recurring fee)	We have provided subscription services only; any decisions are made independently by the Council. The work is undertaken by a team independent of the audit team. 2021/22 was the final year of a three year contract, which expired in 30/05/21.

# Our digital audit experience

A key component of our overall audit experience is our comprehensive data analytics tool, which is supported by Inflo Software technology. This tool has a number of key functions within our audit process:

Function	Benefits for you
Data extraction	Providing us with your financial information is made easier
File sharing	An easy-to-use, ISO 27001 certified, purpose-built file sharing tool
Project management	Effective management and oversight of requests and responsibilities
Data analytics	Enhanced assurance from access to complete data populations

Grant Thornton's Analytics solution is supported by Inflo Software technology

# Our digital audit experience

A key component of our overall audit experience is our comprehensive data analytics tool, which is supported by Inflo Software technology. This tool has a number of key functions within our audit process:

## Data extraction

- Real-time access to data
- Easy step-by-step guides to support you upload your data

## File sharing

- Task-based ISO 27001 certified file sharing space, ensuring requests for each task are easy to follow
- Ability to communicate in the tool, ensuring all team members have visibility on discussions about your audit, reducing duplication of work

## Project management

- Facilitates oversight of requests
- Access to a live request list at all times

## Data analytics

- Relationship mapping, allowing understanding of whole cycles to be obtained quickly
- Visualisation of transactions, allowing easy identification of trends and anomalies

## How will analytics add value to your audit?

Analytics will add value to your audit in a number of ways. We see the key benefits of extensive use of data analytics within the audit process to be the following:

### Improved fraud procedures using powerful anomaly detection

Being able to analyse every accounting transaction across your business enhances our fraud procedures. We can immediately identify high risk transactions, focusing our work on these to provide greater assurance to you, and other stakeholders.

Examples of anomaly detection include analysis of user activity, which may highlight inappropriate access permissions, and reviewing seldom used accounts, which could identify efficiencies through reducing unnecessary codes and therefore unnecessary internal maintenance.

Another product of this is identification of issues that are not specific to individual postings, such as training requirements being identified for members of staff with high error rates, or who are relying on use of suspense accounts.

### More time for you to perform the day job

Providing all this additional value does not require additional input from you or your team. In fact, less of your time is required to prepare information for the audit and to provide supporting information to us.

Complete extracts from your general ledger will be obtained from the data provided to us and requests will therefore be reduced.

We provide transparent project management, allowing us to seamlessly collaborate with each other to complete the audit on time and around other commitments.

We will both have access to a dashboard which provides a real-time overview of audit progress, down to individual information items we need from each other. Tasks can easily be allocated across your team to ensure roles and responsibilities are well defined.

Using filters, you and your team will quickly be able to identify actions required, meaning any delays can be flagged earlier in the process. Accessible through any browser, the audit status is always available on any device providing you with the information to work flexibly around your other commitments.

# Appendix 1: Progress against prior year audit recommendations

We identified the following issues in our 2020/21 audit of the Council's financial statements, which resulted in four recommendations being reported in our 2020/21 Audit Findings Report. We have followed up on the implementation of our recommendations and two are still being addressed.

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue
<b>In progress</b>	<p><b>IT Audit Recommendations</b></p> <p>Ten recommendations have been identified in relation to the IT control audit. A separate IT report has been shared with management providing the detail.</p> <p>Management should continue to implement the recommendations as set out in the detailed IT report.</p>	<p>The Council has implemented a number of these recommendations into their IT general controls environment, however there are three still in progress that relate to the Council. These relate to: improved audit logs; reviews of user roles; and employee acknowledgement of Council IT policy.</p>
	<p><b>Clarity of Financial Reporting</b></p> <p>As part of raising the bar, there is a much greater focus on the clarity of financial reporting, particularly in key areas that involve estimation and judgement.</p> <p>Management need to undertake a detailed review against the Code and determine if the level of disclosure remains appropriate. Particular areas of focus should be PPE, Pensions and financial instruments.</p>	<p>The Council has reviewed disclosures as part of their preparation for the 2021/22 accounts and plans to enhance disclosures where appropriate.</p>

# Progress against prior year audit recommendations

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue
✓	<p><b>Disclosures surrounding critical judgments</b></p> <p>Disclosures relating to both critical judgements and estimation uncertainty lack the level of detail envisaged by ISA 540 and as described in the most recent FRC thematic review.</p> <p>Given the additional focus on accounting estimates, management should consider working more closely with fund managers and other experts to ensure more detailed disclosures can be provided in relation to both estimation uncertainty and critical judgements.</p>	<p>The Council has reviewed disclosures as part of their preparation for the 2021/22 accounts and will enhance disclosures where appropriate.</p>
In progress	<p><b>Journals work – User listings</b></p> <p>The initial authorised journal posters listing provided by management totalled 104 authorised individuals. An analysis of the full journal population identified that 446 individuals had actually posted journals in year.</p> <p>We recommend that management review the number of authorised users who can post journals to ensure that it remains appropriate.</p>	<p>The ability to post journals is linked to the user role as determined on setup. The Council is continuing to review journal postings and users as part of in-year systems and controls work. From discussions with the Systems team, a regular review of user access rights has been added to their development list and is intended to be integrated into their system of controls as soon as possible.</p>

# Significant improvements from the Financial Reporting Council's (FRC) quality inspection

On 29 October, the FRC published its annual report setting out the findings of its review of the work of local auditors. The report summarises the results of the FRC's inspections of twenty audit files for the last financial year. A link to the report is here: [FRC AQR Major Local Audits October 2021](#)

Grant Thornton are one of seven firms which currently delivers local audit work. Of our 330 local government and NHS audits, 87 are currently defined as 'major audits' which fall within the scope of the AQR. This year, the FRC looked at nine of our audits.

## Our file review results

The FRC reviewed nine of our audits this year. It graded six files (67%) as 'Good' and requiring no more than limited improvements. No files were graded as requiring significant improvement, representing an impressive year-on-year improvement. The FRC described the improvement in our audit quality as an 'encouraging response by the firm to the quality findings reported in the prior year.' Our Value for Money work continues to be delivered to a high standard, with all of the files reviewed requiring no more than limited improvement. We welcome the FRC findings and conclusions which demonstrate the impressive improvement we have made in audit quality over the past year.

The FRC also identified a number of good practices including effective challenge of management's valuer, use of an auditor's expert to assist with the audit of a highly specialised property valuation, and the extent and timing of involvement by the audit partner on the VFM conclusion.

Our results over the past three years are shown in the table below:

Grade	Number 2018/19	Number 2019/20	Number 2020/21
Good with limited improvements (Grade 1 or 2)	1	1	6
Improvements required (Grade 3)	2	5	3
Significant improvements required (Grade 4)	1	0	0
Total	4	6	9

## Our continued commitment to Audit quality and continuous improvement

Our work over the past year has been undertaken during the backdrop of COVID, when the public sector has faced the huge challenge of providing essential services and helping safeguard the public during the pandemic. Our NHS bodies in particular have been at the forefront of the public health crisis. As auditors we have had to show compassion to NHS staff deeply affected by the crisis, whilst staying focused on the principles of good governance and financial management, things which are more important than ever. We are very proud of the way we have worked effectively with audited bodies, demonstrating empathy in our work whilst still upholding the highest audit quality.

# Significant improvements from the Financial Reporting Council's (FRC) quality inspection (cont.)

Over the coming year we will make further investments in audit quality including strengthening our quality and technical support functions, and increasing the level of training, support and guidance for our audit teams. We will address the specific improvement recommendations raised by the FRC, including:

- Enhanced training for local auditors on key assumptions within property valuations, and how to demonstrate an increased level of challenge
- Formalising our arrangements for the consideration of complex technical issues by Partner Panels.

As part of our enhanced Value for Money programme, we will focus on identifying the scope for better use of public money, as well as highlighting weaknesses in governance or financial stewardship where we see them.

## Conclusion

Local audit plays a critical role in the way public sector audits an society interact, and it depends on the trust and confidence of all those who rely on it. As a firm we're proud to be doing our part to promote good governance, effective stewardship and appropriate use of public funds.
