

# Energy Strategy Dashboard

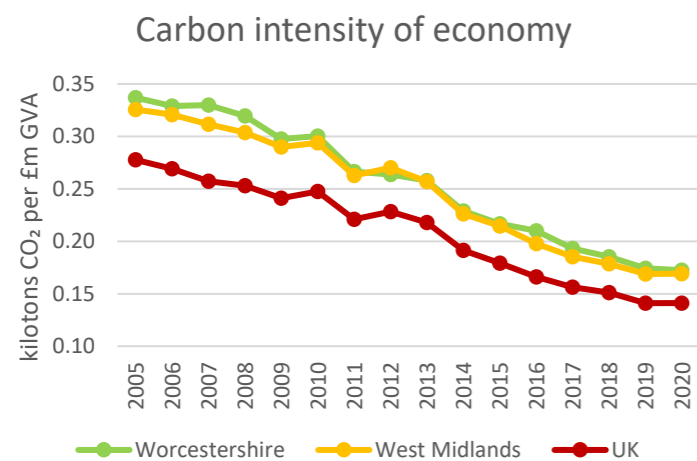

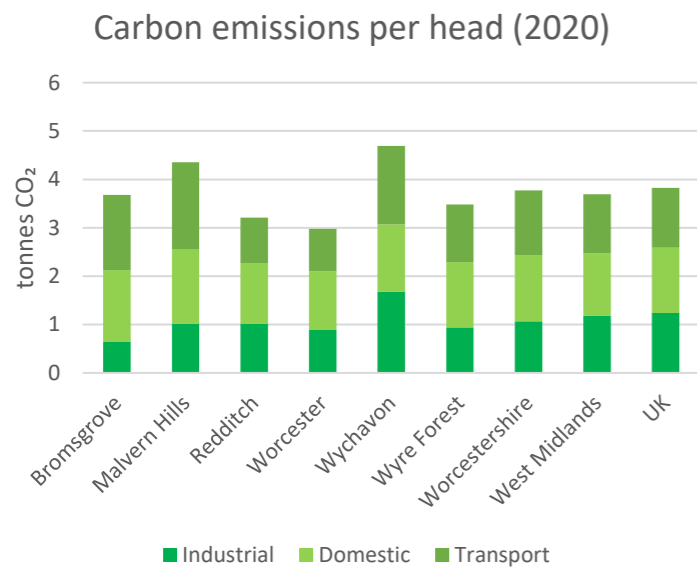

# Energy Strategy Indicators

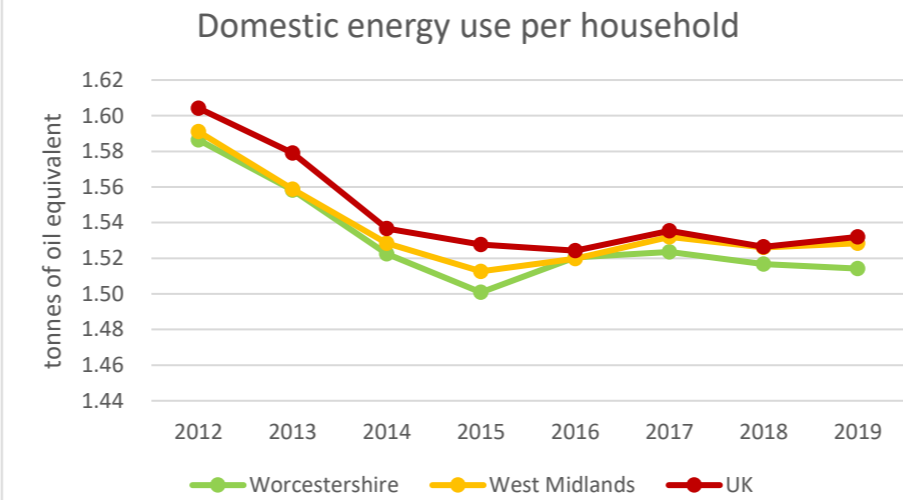

## Carbon emissions

**2,264** kilotons CO<sub>2</sub> emissions (2020)  
**3.8** tonnes CO<sub>2</sub> emissions per head (2020)  
**0.17** kilotons CO<sub>2</sub> per £m GVA (2020)

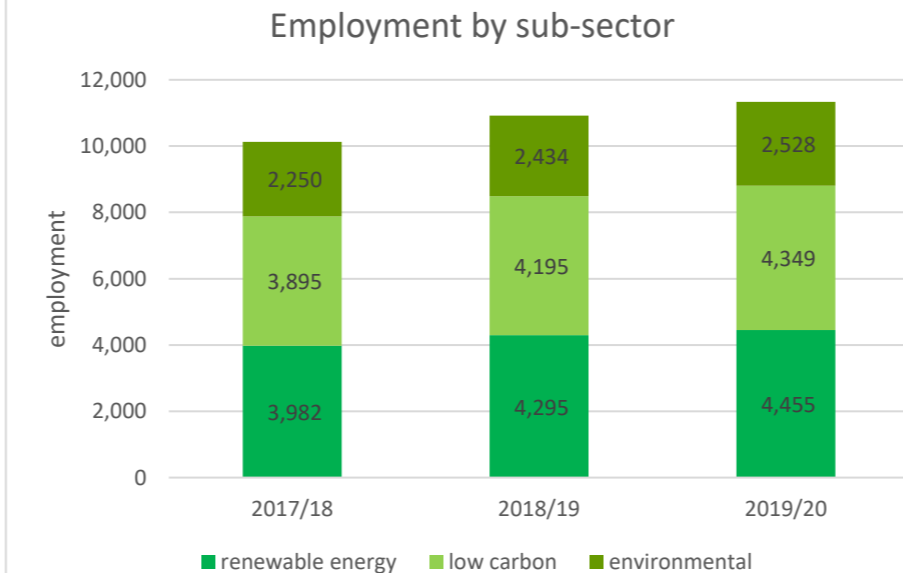

## Affordable energy

**14.5%** households in fuel poverty (2020)  
**1.51** (toe) energy use per household (2019)  
**1,002** home energy interventions (2019)

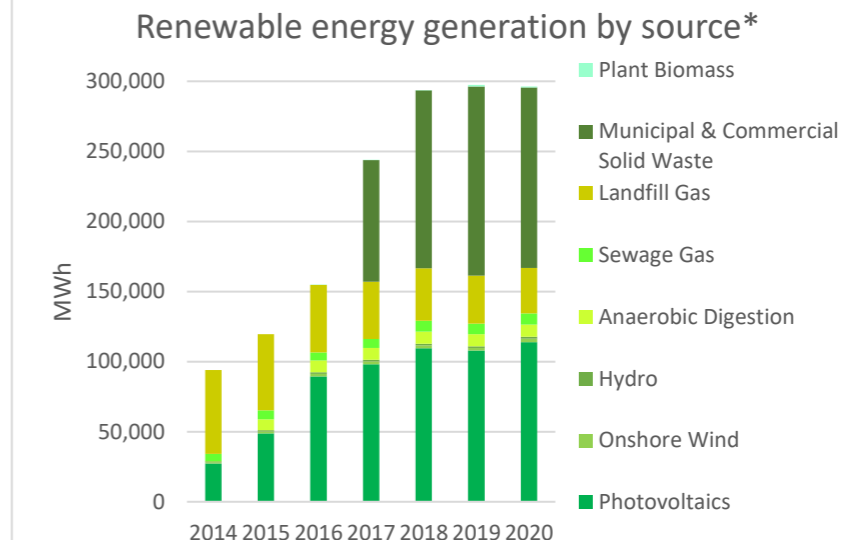

## Low carbon economy

**11,300** jobs (2019/20)  
**700** businesses (2019/20)  
**£457m** investment in R&D (2019/20)  
**£37m** renewable energy generation (2020)

## Infrastructure and development

£ funding for community energy  
**296,228** MWh renewable energy generation (2020)

\* Figures include generation from energy-from-waste facility.

## Low carbon transport

**173** electric vehicle charging devices - (July 2022)  
**6,895** ultra low emissions vehicles (Q1 2022)
