## 4. Equality

**We need to determine whether the project could affect residents and/or Council staff because they share any of the Protected Characteristics defined in the Equality Act 2010 namely Age, Disability, Gender Reassignment, Marriage/Civil Partnership, Pregnancy, Race, Religion/Belief, Sex and Sexual Orientation.**

**Does the project relate to an area where data/research indicates that inequalities are already known to exist? No**

**Could this project have any effect on, service delivery or usage, other aspects of daily life or community participation levels for people because they belong to any of the groups below?**

**Age No**

e.g. a person belonging to a particular age group (for example 18 – 30-year olds).

**Disability No**

e.g. A person has a disability if she or he has a physical or mental impairment which has a substantial and long-term adverse effect on that person's ability to carry out normal day-to-day activities.

**Gender Re-Assignment No**

e.g. The process of transitioning from one gender to another.

**Marriage/Civil Partnership Status No**

e.g. Marriage is a union between a man and a woman or between a same-sex couple. Same-sex couples can also have their relationships legally recognised as 'civil partnerships'. Civil partners must not be treated less favourably than married couples (except where permitted by the Equality Act).

**Pregnancy/Maternity No**

e.g. Pregnancy is the condition of being pregnant or expecting a baby. Maternity refers to the period after the birth and is linked to maternity leave in the employment context. In the non-work context, protection against maternity discrimination is for 26 weeks after giving birth, and this includes treating a woman unfavourably because she is breastfeeding.

## 5. Public Health

We also want to understand if the project will have any impacts on public health.

The social, economic, cultural and physical environment in which people live their lives has a significant effect on their health and wellbeing. Although genetics and personal behaviour play a strong part in determining an individual's health, good health starts where we live, where we work and learn, and where we play.

Improving public health requires taking a broader view of the conditions that create health and wellbeing, from how we plan and develop our urban spaces and places, to the opportunities for employment, recreation, and social connection available to all who live in them.

Health inequalities are the preventable, unfair and unjust differences in health status between groups, populations or individuals that arise from the unequal distribution of social, environmental and economic conditions within societies, which determine the risk of people getting ill, their ability to prevent sickness, or opportunities to take action and access treatment when ill health occurs.

### Could the project have an impact on any of the following factors?

#### **Social and Economic No**

e.g. culture, social support (neighbourliness, social networks/isolation), spiritual participation, employment opportunities.

#### **Physical Health No**

e.g. physical activity is expected to increase, influenza vaccination uptake increase

#### **Mental Health & Wellbeing No**

e.g. benefits to children's mental health, benefits to adult carer wellbeing.

#### **Access to Services No**

e.g. access to (location/disabled access/costs) and quality of primary/community/secondary health care, child care, social services, housing/leisure/social security services; public transport, policing, other health relevant public services, non-statutory agencies and services.

#### **As you answered 'No' to all the questions, please explain your reasoning below:**

## 5. Environmental Sustainability

We want to understand if the project activity and project outcomes will have an impact on environmental sustainability. Please be mindful that the Council has committed to reduce its emissions to net-zero by 2050 and most projects are likely to have an impact on this target. This should be a key consideration in your project delivery and should be reviewed when completing these screening documents.

### Could this project have an impact on the categories listed below?

**Greenhouse Gas (GHG) Emissions (including CO2) No**

e.g. increased GHG emissions as a result of project implementation, which may also be linked with efficient use of resources in WCC buildings; transport; emissions from waste; and procurement.

**Efficient Use of Resources No**

e.g. consumption of energy resources, water, electricity, gas and heating fuels.

**Transport No**

e.g. number of people travelling, alternative transport modes.

**Waste No**

e.g. increase in waste generated or an increase in waste recycling.

**Wildlife and Biodiversity No**

e.g. impacts on the natural environment or enhancements to the natural environment.

N.B. This refers to any direct or indirect modifications to landholdings, including but not limited to removal of vegetation, alteration or demolition of buildings or modification of watercourses or lighting (not limited to just green space/trees).

**Pollution to Land or Water No**

e.g. risk of pollution to the local environment.

**Pollution to Air No**

e.g. risk of pollution to air, activity which may adversely affect air quality or increase emissions to air

**Resilience to climate change No**

e.g. risks of extreme weather and climate impacts on the project.

**Historic Environment No**

e.g. impacts on Historic Environment or enhancements of the Historic Environment.

**Procurement No**

e.g. could procurement associated with the project result in an increase of natural resources (such as long-distance shipping of goods); could use be made of local resources or work forces to support delivery of the project.

**As you answered 'No' to all the questions, please explain your reasoning below:**
