Economy and Infrastructure Dashboard

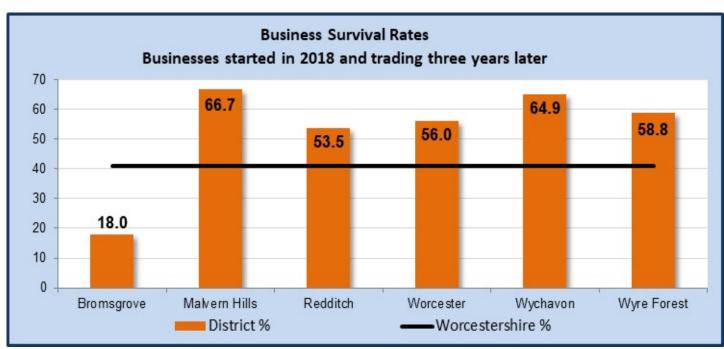

Figures are from Office for National Statistics' analysis of the Inter-Departmental Business Register (IDBR). An enterprise is the smallest combination of legal units that has a certain degree of autonomy within an enterprise group. This is generally based on VAT and/or PAYE records.

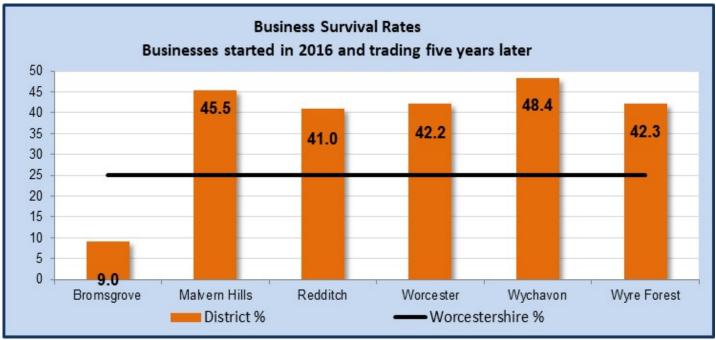

Figures are from Office for National Statistics' analysis of the Business Register Employment Survey (BRES).

For each district council area, the percentage of businesses that commenced trading in 2020 and were active in terms of employment and/or turnover in any part of 2021. Office for National Statistics' annual Business Demography data-set provides information up to and including the year preceding publication. The latest available figures, contained in the November 2022 publication, therefore relate to 2021.

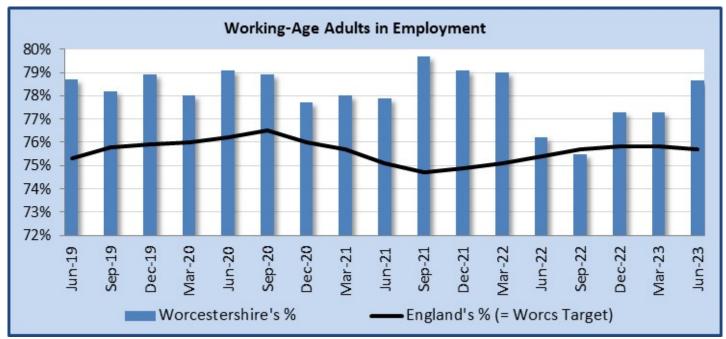

For each district council area, the percentage of businesses that commenced trading in 2018 and were active in terms of employment and/or turnover in any part of 2021. Office for National Statistics' annual Business Demography data-set provides information up to and including the year preceding publication. The latest available figures, contained in the November 2022 publication, therefore relate to 2021.

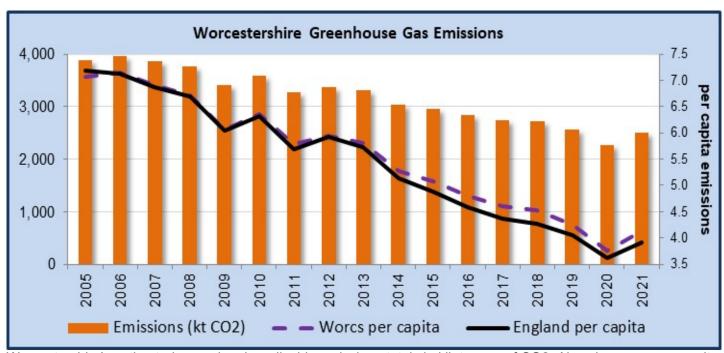

For each district council area, the percentage of businesses that commenced trading in 2016 and were active in terms of employment and/or turnover in any part of 2021. Office for National Statistics' annual Business Demography data-set provides information up to and including the year preceding publication. The latest available figures, contained in the November 2022 publication, therefore relate to 2021.

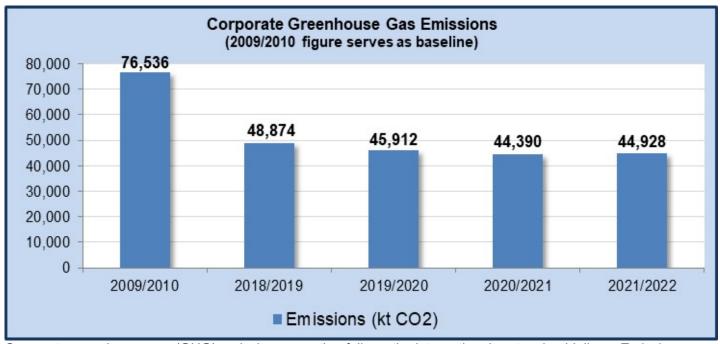

Gross Value Added (GVA) measures the contribution to the economy of each individual producer, industry or sector in the United Kingdom. Worcestershire's annual figures are the monetary value of goods and services produced in the county, less the cost of all inputs and raw materials directly attributable to their production. Office for National Statistics (ONS) released 2018/2019's data on 26th May 2021. Amendments were published in June. Release date of 2019/2020's data is still to be confirmed by ONS.

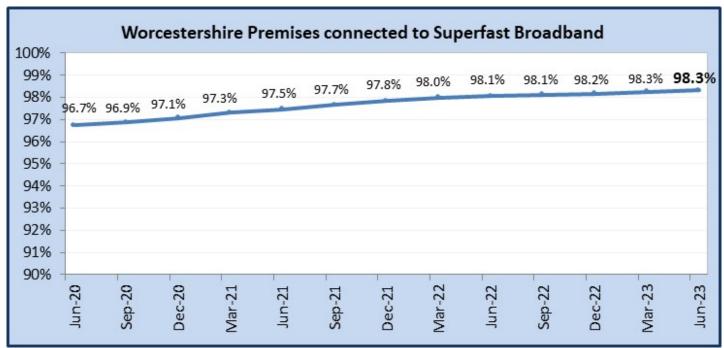

The left-hand axis and bars show the number of working-age adults (16 to 64) In employment at the end of each quarter. The right-hand axis and the two lines show, for the end of each quarter, the percentage of Worcestershire's population aged 16-64 in employment and England's equivalent percentage at the same point. The latest-available data (published in mid-August) is for the year ending 31st March 2022. The next Office for National Statistics data-set will be released in mid-October.

Worcestershire's estimated annual carbon dioxide emissions totals in kilotonnes of CO2. Also shown are per capita figures for the county and for England as a whole. The totals relate to emissions that can be influenced, i.e they exclude emissions from large industrial sites, railways, and motorways. Data is published two years in arrears by Department for Business, Energy and Industrial Strategy. 2022's data is scheduled to be published in June 2024.

Corporate greenhouse gas (GHG) emissions reporting follows the international protocol guidelines. Emissions are categorised in three different 'scopes'. Between them, these cover direct emissions from Council activities under our control and all indirect emissions, whether they emanate from corporately-owned buildings or assets (e.g. street lights), staff travel or outsourced operations, including municipal waste-disposal. WCC's GHG Emissions Report 2021/2022 was published in late-autumn 2022.

The percentage of all Worcestershire homes and business premises connect to Superfast broadband (24 Megabits per second).

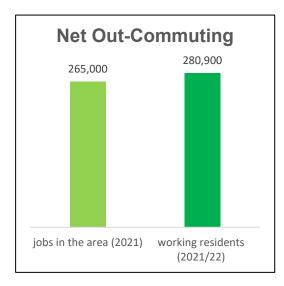

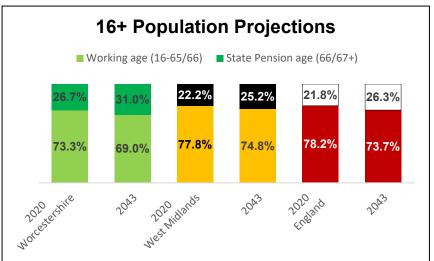

This corporate-level performance indicator covers the percentage of on-time train journeys in and out of Worcester at morning and evening peak times. Morning peak-time trains are those arriving at their destination between 6am and 10am; evening peak-time trains arrive at their destination between 4pm and 8pm. Train journeys are included to and from four major cities: Birmingham; Bristol; London; Oxford. Details of train journeys from other locations in Worcestershire are provided in the accompanying summary document.

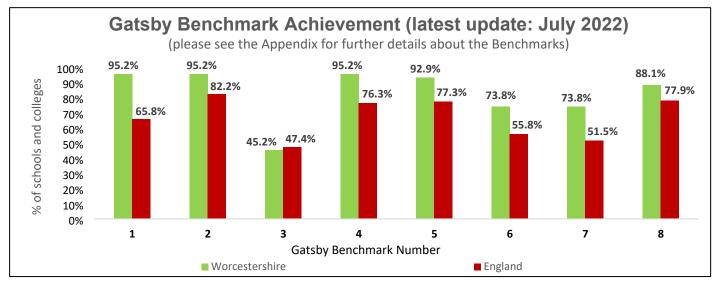

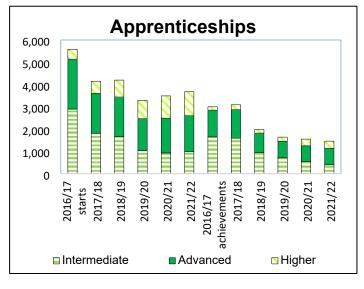

Worcestershire People Dashboard 2023

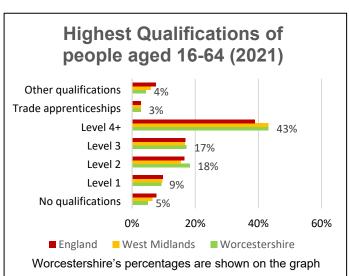

People Dashboard presented to the WLEP Employment and Skills Board's 14th September meeting.

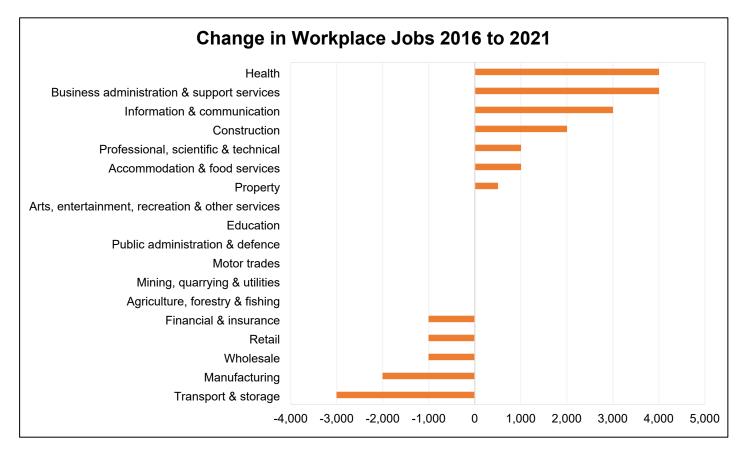

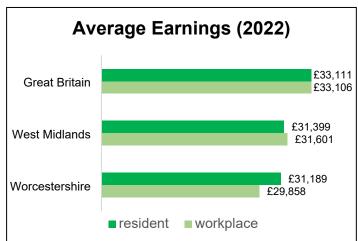

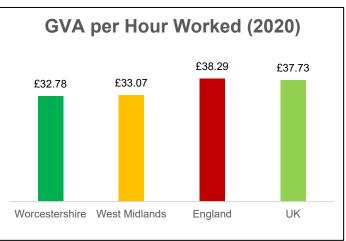

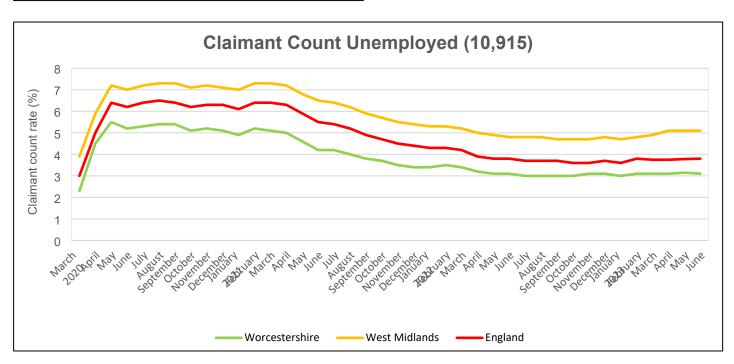

Business Enterprises by Employment Sizebands

VAT and/or PAYE based enterprises broken down by the number of employees. The figures are from the Office for National Statistics data sets released in October 2021 and October 2022.

Business Enterprises by Broad Industry Group

VAT and/or PAYE based enterprises. An enterprise is the smallest combination of legal units (generally based on VAT and/or PAYE records), which has a certain degree of autonomy within an enterprise group. An individual site (for example a factory or shop) in an enterprise is called a local unit. The figures are from the Office for National Statistics data sets released in October 2021 and October 2022. The industry categories are those used and defined in the Standard Industrial Classification (UK SIC 2007)

^{*} Bromsgrove's business births and survival-rate figures for 2016 to 2019: In recent years, the number of multiple registrations on the Inter-Departmental Business Register (IDBR) at a single postcode has increased. This can cause large fluctuations. There are several reasons why these multiple registrations can occur. For example, the increase in the use of management and personal service companies, the use of formation agents to register a new business with Companies House, virtual offices, the presence of the HM Revenue and Customs (HMRC) local offices, and foreign on-line sellers. There has also been an increase in the number of temporary staff (for example supply teachers, drivers, and nurses) setting up their own limited companies. In these cases, when the person registers as a limited company they are the only employee and are also the owner or director of the business. Very often these limited companies, sometimes referred to as 'personal service companies', are using a management company and are registered at the address of the management company rather than the individual limited company address. These businesses may only exist for a few months, to cover the period of the temporary contract. In extreme cases, several thousand businesses can be registered at a single management company address. When new businesses are registered as limited companies by temporary workers and contractors, their survival rates can be shorter. For example, in the initial year the area could show a higher-than-normal business birth rate, but then the following year there could be an adverse effect on the business death rates that will result in lower business survival rates.

Employment: Working-Age Adults (16 to 64) In Employment

The percentage at the end of each quarter of Worcestershire's population aged 16 to 64 in employment compared to England's equivalent percentage for the same period. The next Office for National Statistics data-set will be released in mid-October.

Quarter-End Month	Worcestershire	England (also Worcestershire Target)
March 2015	78.30%	71.70%

Employment: Payrolled Employees

The figures are from an experimental HMRC/Office for National Statistics data-set covering all age-groups. The figures for June 2023 are estimates, more likely to be subject to significant revisions than previous months' figures.

Values for each month are an average of employee counts on each day of the month. It is a measure of payrolled employees, as opposed to a measure of employee jobs. The estimates for June 2023 indicate the number of payrolled employees in the UK rose by 1.5% compared with June 2022 (Worcestershire: +1 %).

In the following table, the figures for Shropshire are a combination of those for Shropshire Council and Telford and Wrekin Council. All totals for the West Midlands are combined figures for Birmingham, Coventry, Dudley, Sandwell, Solihull, Walsall, and Wolverhampton.

Date	Worcestershire	Gloucestershire	Herefordshire	Shropshire	Staffordshire	Warwickshire	West Midlands	UK

Economic Growth: Gross Value Added (GVA)

Worcestershire's Gross Value Added (GVA) is the value of goods and services produced in the county, less the cost of all inputs and raw materials directly attributable to their production. The latest Office for National Statistics data was published in May 2021, with the most recent financial year covered by the figures being 2018/2019.

Financial Year	Actual Figure (£s)	Actual Target (£s)	Performance (£000 millions)	Target (£000 millions)	Worcestershire's Share of England's GVA	Target
2007/2008	9,937,000,000		9,937		0.82%

Worcestershire County Council Greenhouse Gas Emissions by Scope (Type of Activity)

The last four columns in the table below show the percentage change in each financial year compared with 2009/2010's baseline. Latest update: November 2022.

Emissions Category (please see notes for details)	2009/2010 (baseline)	2018/2019	2019/2020	2020/2021	2021/2022	2018/2019	2019/2020	2020/2021	2021/2022
Scope 1	4,598	2,669	2,467	2,480	2,300	-42.0	-46.3	-46.1	-50.0
Scope 2	16,672	7,934	6,459	5,273	4,286	-52.4	-61.3	-68.4	-74.3
Scope 3	55,266	38,271	36,986	36,637	38,342	-30.8	-33.1	-33.7	-30.6

Totals	76,536	48,874	45,912	44,390	44,928	-36.1	-40.0	-42.0	-41.3
		1							

Scope 1: Natural gas use in WCC buildings (excluding schools); fuel use in WCC vehicle fleet; residual fuel use (e.g. burning oil, LPG, etc.) consumed at WCC sites (excluding schools).

Scope 2: Indirect emissions - electricity use in WCC buildings (excluding schools) and street lighting (grid generation).

Scope 3: Other indirect emissions, e.g. electricity use in WCC buildings (excluding schools) and street lighting (grid transmission and distribution); staff mileage travelled by WCC staff for business purposes; electricity and gas consumption in buildings operated by the main out-sourced contractors for Waste Management and Highways services; fleet and staff mileage undertaken by main out-sourced contractors for Waste Management and Highways services on behalf of WCC; petrol and diesel consumption by contracted fleet vehicles; emissions from municipal waste disposal.

During 2021/22, WCC purchased green electricity for all corporate sites and street lighting that met the Renewable Energy Guarantees of Origin (REGO) standard. All Scope 2 emissions associated with the generation of REGO-accredited electricity can be classed as a net benefit (carbon offset) for reporting purposes. The elimination of all the Scope 2 emissions reduces the overall 2021/2022 emissions figure from 44,928 to 40,642, down 46.9% compared with 2009/2010's baseline figure of 76,536.

Local authorities have removed schools' emissions from their Greenhouse Gas reporting. In Worcestershire, an exercise was undertaken in 2019 to remove schools' emissions from the 2009/2010 data. This was done to ensure the baseline total against which progress is being monitored was calculated using the same methodology as has been applied for all years from 2018/2019. Re-calculation of figures for years from 2010/2011 to 2017/2018 would be a major piece of work.

Worcestershire County Council Greenhouse Gas Emissions - Share of Annual Corporate Emissions by Activity

Latest update: November 2022 for 2021/2022

Share of Annual Corporate Emissions by Activity	2018/2019	2019/2020	2020/2021	2021/2022
Waste Disposal	67%	69%	72%	74%
Street Lighting	12%	11%	10%	8%
Severn Waste	4%	5%	4%	5%
Buildings - Gas	3%	3%	4%	3%
Ringway	4%	3%	4%	3%
Buildings - Electricity	5%	4%	3%	2%

Rail Journeys: Station Usage

The combined entry and exit totals in the table below are financial-year estimates derived from manual station counts and local ticketing data. The data is refreshed annually in late-November by Office of Rail and Road (ORR).

According to ORR, in the 2021/2022 financial year, 990 million passenger journeys were made in Great Britain, up 155.2% from 388 million in 2020/2021 and equivalent to 56.9% of the pre-COVID 2019/2020 tally of 1,739,000,000.

Station	2016/2017	2017/2018	2018/2019	2019/2020	2020/2021	2021/2022	21/22 as % of 19/20
Blakedown	95,164	111,280	97,242	99,500	38,914	60,810	61.1

Appendix – Gatsby Benchmarking System

The eight benchmarks serve as a framework for improvement in careers advice provision, links between curriculums and career pathways, and the needs of pupils in higher education and the workplace. They form part of the Government's Careers Strategy and statutory guidance for schools and colleges. The Careers and Enterprise Company supports the implementation of the benchmarks in schools and colleges with a national network of support, resources and targeted funding. The service target is an average of 6 out of 8 Gatsby Benchmarks across 65 educational establishments. Performance dipped slightly during the last quarter of 2021/2022, but the year-end position maintained the above-target status first attained during the October-to-December 2022 quarter. By the end of the third quarter of *this* financial year, Secondary, FE, PRU, and SEND establishments in the first set ('Wave') of Careers Hubs had achieved a Gatsby score of 6.62 benchmarks; Wave 3 Middle Schools were at 5.85. National Performance is 5.30. Worcestershire is currently one of the top three performers. There will continue to be a focus on the creation and development of resources to help support Hub member schools.

The 8 Benchmarks are:

- 1. A stable careers programme
- 2. Learning from careers and labour market information
- 3. Addressing the needs of each student
- 4. Linking curriculum learning to careers
- 5. Encounters with employers and employees
- 6. Experiences of workplaces
- 7. Encounters with further and higher education
- 8. Personal guidance
