

Project Screening

Impact Assessment Id: #661

1. Your Details

Name of person completing screening assessment

Rebecca Wassell

Job Title

Assistant Director - People Commissioning

Directorate

People

Service Area

Commissioning

Email Address

RWassell@worcestershire.gov.uk

Connection to project (e.g. project manager)

N/A

2. Project Summary

For the purposes of the impact assessment screening, we will refer to the activity or area being assessed as a project.

Project Name

Commissioning Strategy

Name of Project Sponsor

Mark Fitton

Name of Project Manager

Rebecca Wassell

Name of Project Lead

Rebecca Wassell

Project Reference (if known)

N/A

Please give a brief description of the project

This is not a project. It is a strategy prepared to provide transparency on how the county council commissions adult social care services and relates to the Market Position Statement (Commissioning intentions based on relevant information from the 2021 census and the forward demographic projections re the County population, plus the direction of travel as detailed in the approved Corporate plan, the Adult Social Care Strategy and Joint Strategic Needs Assessment in order to ensure that care markets are sustainable and able to deliver the care needs required

3. Data Protection

We need to establish if the proposal involves processing personal data. Personal data is information that relates to an identified or identifiable individual.

Name of Information Asset Owner

Rebecca Wassell

Senior officer responsible for the project's information assets

Does the project, any project work stream or project outcome involve any personal data? Some examples of personal data are given below. **No**

Appearance:

photograph, physical description

Basic Identifiers:

name, date of birth, age, biometric data, ethnic origin, gender, genetic data, race, sex

Contact Details:

address, email address, home phone number, mobile phone number, postcode

ID Number:

National Insurance Number, driving licence number, NHS number, online identifier, other general identifier

Employment:

work related training/awards

Financial:

income/financial/tax situation

Lifestyle:

health or social care, living habits, marital status, philosophical beliefs, political opinions, religion, sex life, trade union membership

Technology:

login/username, device MAC address (wireless network interface), device IMEI number, IP Address, location data (travel/GDPS/GSM data), website cookies

As you answered 'No', please explain your reasoning below:

This document does not relate to individuals. It relates to how we commission adult social care services for the adult population of the county as a collective. It contains no personal information or data from which any individual may be identified.

4. Equality

We need to determine whether the project could affect residents and/or Council staff because they share any of the Protected Characteristics defined in the Equality Act 2010 namely Age, Disability, Gender Reassignment, Marriage/Civil Partnership, Pregnancy, Race, Religion/Belief, Sex and Sexual Orientation.

Does the project relate to an area where data/research indicates that inequalities are already known to exist? Yes

Could this project have any effect on, service delivery or usage, other aspects of daily life or community participation levels for people because they belong to any of the groups below?

Age Yes

e.g. a person belonging to a particular age group (for example 18 – 30-year olds).

Disability No

e.g. A person has a disability if she or he has a physical or mental impairment which has a substantial and long-term adverse effect on that person's ability to carry out normal day-to-day activities.

Gender Re-Assignment No

e.g. The process of transitioning from one gender to another.

Marriage/Civil Partnership Status No

e.g. Marriage is a union between a man and a woman or between a same-sex couple. Same-sex couples can also have their relationships legally recognised as 'civil partnerships'. Civil partners must not be treated less favourably than married couples (except where permitted by the Equality Act).

Pregnancy/Maternity No

e.g. Pregnancy is the condition of being pregnant or expecting a baby. Maternity refers to the period after the birth and is linked to maternity leave in the employment context. In the non-work context, protection against maternity discrimination is for 26 weeks after giving birth, and this includes treating a woman unfavourably because she is breastfeeding.

Race No

e.g. Refers to the protected characteristic of race. It refers to a group of people defined by their race, colour, and nationality (including citizenship) ethnic or national origins.

Religion or Belief No

e.g. Religion refers to any religion, including a lack of religion. Belief refers to any religious or philosophical belief and includes a lack of belief. Generally, a belief should affect your life choices or the way you live for it to be included in the definition.

Sex No

Sexual Orientation No

e.g. Whether a person's sexual attraction is towards their own sex, the opposite sex or to both sexes.

Health Inequalities Yes

e.g. Any preventable, unfair & unjust differences in health status between groups, populations or individuals that arise from the unequal distribution of social, environmental & economic conditions within societies.

5. Public Health

We also want to understand if the project will have any impacts on public health.

The social, economic, cultural and physical environment in which people live their lives has a significant effect on their health and wellbeing. Although genetics and personal behaviour play a strong part in determining an individual's health, good health starts where we live, where we work and learn, and where we play.

Improving public health requires taking a broader view of the conditions that create health and wellbeing, from how we plan and develop our urban spaces and places, to the opportunities for employment, recreation, and social connection available to all who live in them.

Health inequalities are the preventable, unfair and unjust differences in health status between groups, populations or individuals that arise from the unequal distribution of social, environmental and economic conditions within societies, which determine the risk of people getting ill, their ability to prevent sickness, or opportunities to take action and access treatment when ill health occurs.

Could the project have an impact on any of the following factors?

Social and Economic No

e.g. culture, social support (neighbourliness, social networks/isolation), spiritual participation, employment opportunities.

Physical Health Yes

e.g. physical activity is expected to increase, influenza vaccination uptake increase

Mental Health & Wellbeing Yes

e.g. benefits to children's mental health, benefits to adult carer wellbeing.

Access to Services Yes

e.g. access to (location/disabled access/costs) and quality of primary/community/secondary health care, child care, social services, housing/leisure/social security services; public transport, policing, other health relevant public services, non-statutory agencies and services.

5. Environmental Sustainability

We want to understand if the project activity and project outcomes will have an impact on environmental sustainability. Please be mindful that the Council has committed to reduce its emissions to net-zero by 2050 and most projects are likely to have an impact on this target. This should be a key consideration in your project delivery and should be reviewed when completing these screening documents.

Could this project have an impact on the categories listed below?

Greenhouse Gas (GHG) Emissions (including CO2) No

e.g. increased GHG emissions as a result of project implementation, which may also be linked with efficient use of resources in WCC buildings; transport; emissions from waste; and procurement.

Efficient Use of Resources No

e.g. consumption of energy resources, water, electricity, gas and heating fuels.

Transport No

e.g. number of people travelling, alternative transport modes.

Waste No

e.g. increase in waste generated or an increase in waste recycling.

Wildlife and Biodiversity No

e.g. impacts on the natural environment or enhancements to the natural environment.

N.B. This refers to any direct or indirect modifications to landholdings, including but not limited to removal of vegetation, alteration or demolition of buildings or modification of watercourses or lighting (not limited to just green space/trees).

Pollution to Land or Water No

e.g. risk of pollution to the local environment.

Pollution to Air No

e.g. risk of pollution to air, activity which may adversely affect air quality or increase emissions to air

Resilience to climate change No

e.g. risks of extreme weather and climate impacts on the project.

Historic Environment No

e.g. impacts on Historic Environment or enhancements of the Historic Environment.

Procurement No

e.g. could procurement associated with the project result in an increase of natural resources (such as long-distance shipping of goods); could use be made of local resources or work forces to support delivery of the project.

As you answered 'No' to all the questions, please explain your reasoning below:

The document relates to the commissioning of social care services for adults aged 18 and over. The services may be provided to young people transitioning from childhood, older people and those of working age. All services can provide care and support for people with a diverse range of needs (people with a learning disability or physical disability, older people, people with mental health conditions, people who are neurodiverse, people living with dementia and other long term conditions such as frailty). The aims of care and support provided by these services centre around the promotion of the well-being of the individual and, as far as practicable, their independence to live their own life. The services are not centred around environmental issues.

7. Results of Screening

Data Protection	Does not need a full impact assessment
Equality and Public Health	Will require a full impact assessment
Environmental Sustainability	Does not need a full impact assessment
